THE EVENING TIMES AND STAR, ST. JOHN, N. B., MONDAY, NOVEMBER 21, 1921

IN CITY CHURCHES.

Walter Burd, general secretary of the Brotherhood of St. Andrew in Canada, arrived in St. John on Saturday after a tour through Nova Scotia and yesterday was the preacher at St. John's church in the morning and St. John's church in the evening. In the afternoon he addressed the men's Bible class at Trinity church. Mr. Burd will speak in Rotherham on Sunday, after visiting Moncton, he will return to St. John to address the men of other congregations and his tour is in the interest of the establishment of chapters of the Brotherhood of St. Andrew among the men of the Anglican churches.

Visiting Preachers.

Rev. J. C. Freeman, of Charlottetown, conducted the services in the Charlotte street Baptist church yesterday. He was formerly president of the Maritime Baptist convention. Rev. Dr. S. Spidle, professor of theology at Acadia University, occupied the pulpit of the German street Baptist church in the absence of the pastor, Rev. S. S. Poole, who was at Chipman taking part in the dedication service of the new Baptist church there. Mr. Poole is expected to return to the city this evening. Rev. R. O. Morse, of the Maritime Baptist, conducted the services in the Waterloo street Baptist church.

Anniversary of St. David's.

The second anniversary of the dedication of the present building of St. David's church and the seventy-third anniversary of the dedication of the original St. David's, built on the same site, was fittingly observed in the services at the church yesterday. Rev. C. C. MacIntosh, of Stellarton (N. S.), was the special preacher and Rev. J. A. MacIntosh, the minister, made reference to the fact that the church had been twice burned by fire and twice rebuilt on the same site. He drew attention to the fact that there was present in the congregation John Rogers, who had been a member of the church ever since it was founded. Mr. Rogers, who is a veteran of the war, is a native of St. David's. He executed all the fine carvings which adorn the new church.

Mission Church has just been provided with a handsome pulpit, desk and electric light, by the family of the late Mrs. Johanna Stepler, and which was set yesterday for the first time. Before beginning his sermon at the high altar in the morning the Rev. J. Young, priest in charge, announced the gift and then asked the congregation to join in dedicating the rest, which he then did in appropriate words with prayer. He spoke also of Mrs. Stepler's connection with the church, of which she had been a member ever since it was opened.

Durham, England, who presided at the organ in St. John's church yesterday, has had a remarkable career both as a musician and a soldier. He rose from a private in the ranks to command of his regiment. He commenced his musical

training at the age of eight years under Dr. H. W. Weston, at Holy Trinity. At the age of twelve he was on the organ seat at Wandsworth church. He received his choral training under Sir Frederick Bridge and his orchestral training under Sir Thomas Beauchamp. Mr. Miller arrived in the city on Wednesday. He came to Canada two months ago and gave a series of recitals in Ontario. Last night he held a first choir practice for the Christmas music of Stone church.

The Sunday school choir of the Main street Baptist church supplied the music for the morning service yesterday and they provided a programme that greatly pleased all present. Two anthems were sung by the choir and there was a solo by Misses Dorothy and Marjorie Christie and Eva Lettney. A very helpful sermon on the "Truly Happy People" was preached by the pastor, Rev. Dr. Hutchison.

Not for Women Only.
To millions it is bringing whiter teeth
This new way of teeth-cleaning appeals to women. It brings them prettier teeth. But men also enjoy it, and children must use it to properly clean their teeth.
Millions now use it, largely by dental advice. The glistening teeth you see everywhere now show the results of its use.
Everyone needs it, as this simple test will show. See the results in ten days and decide that for yourself.
You must fight film
Your teeth are coated with a viscous film. You can feel it with your tongue. It clings to teeth, gets between the teeth and stays.
The ordinary tooth paste does not effectively combat it. Your tooth brush has left much of it intact. And that clinging film may do a ceaseless damage.
Film absorbs stains, making the teeth look dingy. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.
Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.
Thus film causes most tooth troubles. And, despite the tooth brush, all those troubles have been constantly increasing. Some have become so common as to be alarming.
Now ways to combat it
Dental science has for years sought ways to combat that film. The ways have now been found. Able authorities have amply proved their efficiency. Leading dentists everywhere now advise their daily use.
The methods are embodied in a scientific tooth paste. The name is Pepsodent. Its use is fast spreading the world over.
To let all know it quickly, a 10-Day Tube is being presented to anyone who asks. Thus thousands of new people daily are learning its delights.
Combines five effects
But Pepsodent does more than fight film. It fights the acid which is a great tooth destroyer.
Each use of Pepsodent multiplies the salivary flow. That is Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva. That is to digest the starch deposits which may otherwise remain and form acid.

Free All This Week
This 10-Day Tube of Pepsodent. Simply present the coupon. This test will prove a delightful revelation. It will show you the way which millions have found to whiter, cleaner, safer teeth. This offer is for one week only. It means much to you and yours. Act now.
It multiplies the alkalinity of the saliva. That is Nature's neutralizer of the acids which attack the teeth.
It combats the film wherever it adheres. It leaves the teeth so highly polished that film cannot easily cling. Pepsodent is also included.
See and feel it act
The results are not uncertain. You can see and feel them. Some are almost instant. A ten-day test is most convincing.
Present the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.
To millions this test has proved a revelation. It has shown them the way to prettier teeth, to cleaner, safer teeth. One does not return to the old ways when he sees what this new way does.
The delightful results
One conspicuous effect is to beautify the teeth. Another is a feeling of cleanliness. Men who smoke will see great changes. It is film that absorbs tobacco stains.
But it is most essential to the children. Young teeth are most subject to film and starch attacks. Dentists advise that children use Pepsodent daily from the time the first tooth appears. Under old methods, very few children escape some tooth destruction.
To all this test is important. Cut out the coupon so you won't forget to make it. Present it this week.
