

## TURNING OUT 250 DIFFERENT LINES

A Great Variety of Products Being Manufactured in the Maritime Provinces.

(Amherst News)  
H. R. Thompson, secretary, Maritime division, Canadian Manufacturers Association, has for some time been compiling a list of the various articles manufactured in the Maritime Provinces. He has given to the News the following list which, while perhaps not complete, gives an idea of the great variety of our manufacturers in the Maritime Provinces and also the worth of manufacturing to the people of this part of Canada.

**Food Products.**  
Aerated and mineral waters, bread, biscuits and confectionery, butter and cheese, fish, fresh cured and canned fruits, canned vegetables, flour and grit mill products, canned meats, baking powder, flavoring extracts, coffee and spices, cocoa and chocolates, condensed

## Use Coconut Oil For Washing Hair

If you want to keep your hair in good condition, be careful what you wash it with.  
Don't use prepared shampoos or anything else that contains too much alkali. This dries the scalp, makes the hair brittle, and is very harmful. Just plain Multifid coconut oil shampoo (which is pure and entirely greaseless) is much better than anything else you can use for shampooing, as this can't possibly injure the hair.

Simply moisten your hair with water and rub it in. One or two teaspoonsful of Multifid will make an abundance of rich, creamy lather, and cleanses the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and it leaves it fine and silky, bright, fluffy and easy to manage.

You can get Multifid coconut oil shampoo at most any drug store. It is very cheap, and a few ounces is enough to last everyone a month. Be sure you get Multifid. Beware of imitations. Look for the name Watkins on the package.

## Letters in Praise of Hall's Wine

THE SUPREME TONIC RESTORATIVE

The letters of praise which we receive from those who have tried Hall's Wine come from both doctors and patients.

One medical man writing says: "Please send 6 bottles of Hall's Wine to my private residence. I have been 'overdoing it' and find Hall's Wine an excellent tonic."

Another doctor writes: "Hall's Wine braced me up so effectively that I have planned my faith to it ever since." A patient writes: "The doctor said I couldn't take anything better than Hall's Wine for building me up after an operation."

There could be no better recommendations of Hall's Wine than letters such as these and no stronger proof of its value in all run-down conditions. Hall's Wine has been regularly prescribed by doctors for over twenty-five years.

Sold by your Druggist. Extra large size bottle \$2.25.

## THE HORRORS OF INDIGESTION

Relieved By "Fruit-a-tives" The Fruit Medicine

Indigestion, Weak Digestion or partial digestion of food is one of the most serious of present-day complaints—because it is responsible for many serious troubles.  
Those who suffer with indigestion almost invariably are troubled with rheumatism, palpitation of the heart, sleeplessness and excessive nervousness.  
"Fruit-a-tives" will always relieve indigestion because these tablets strengthen the stomach muscles, increase the flow of the digestive juices and correct the stagnation, which usually accompanies indigestion.  
50c. a box, 6 for \$2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives, Limited, Ottawa.

milk, evaporated milk, evaporated fruits and vegetables, cream, homogenized, canned lobster, sugar, refined vinegar and pickles, malt liquors, barley flour, oysters, canned pork and pork products, beef and beef products, tax packers, starch, canned chicken.

## "INDIGENT" PATIENT PRODUCES FAT ROLL

A Supposedly Destitute Man Leaves Counties Home for Montreal.

Coburg, Jan. 30.—An indigent patient and a stranger in this locality, who was committed to the Counties Home for the Aged and Infirm, surprised Superintendent McMillan by stating his intention of going to Montreal, and at the same time producing a roll of bills. Mr. McMillan directed him to the depot, and the man who gave the name of Ryan, was soon on his way.

Quite a remarkable story is connected with his arrival at the home. Several weeks ago he and another man arrived at the G. T. R. depot at Port Hope, and mistook their way when going up into town by crossing the viaduct. When they were about half way across a freight train came along and to avoid being run over they flung themselves over the viaduct and hung on to the girders. The night was cold and one of them became exhausted and dropped to the ground, suffering a severe fracture of the leg. He was taken to Port Hope Hospital, where he remained until a few days ago. When he was leaving he is stated to have told a hard-luck story of being

## UNIQUE HAS THE THREE MUSKETEERS

Notable Picture Version of Famous Story Full of Thrills and Action.

Perils by sea and land, treacherous attacks and gallant defences, clever swordplay and dashing horsemanship all combine to make "The Three Musketeers," which opened at the Unique yesterday, a drama alive with thrills and action. Orrin Johnson takes the stellar role as the young musketeer, D'Artagnan. He is a prince to his loyal friends and to those in need, but he is a fiery incarnation of his enemies. His troubles start when he meets De Rochefort as he is on his way to seek fortune in the great metropolis of Paris. It is the time of King Louis and Cardinal Richelieu. De Rochefort makes fun of D'Artagnan's gay sword. The hero takes it as an insult to himself and there is a fight with swords right then and there. D'Artagnan is rendered hors de combat and De Rochefort steals the youth's letter of introduction to the captain of the king's musketeers. He is sent on an important mission to England in the interests of the queen.

In connection with the school needs of the three children on Partridge Island, it was decided that the federal department of agriculture be communicated with. Applications for the position of janitor for Lorne school were received. Authorization was received for a shorter day for the children affected by the closing of St. Joseph's school. Reports were received concerning the cleaning of the household science building and the wiring of Centennial school.

At the close of the meeting a short teachers' committee meeting was held and estimates for the coming year were informally discussed. At the teachers' committee meeting the board approved of the closing of St. Joseph's boys' school, as unit for use during the winter months, and it was agreed that the new girls' building should be used to accommodate both the boys and girls. The boys will attend classes in the morning and the girls in the afternoon. This arrangement will probably remain in force for at least two months and a half.

**VETERANS ELECT**

The annual meeting of the local branch of the Great War Veterans' Association was held last evening. Reports of committees were received. The benevolent committee reported 669 cases helped through the year.

A motion was unanimously adopted increasing the annual fees by \$1, the additional sum thus raised to be used by the benevolent committee in its relief work.

The election of officers resulted in S. J. Tippet, the first president of the association when it was formed, being elected president. Other officers elected were as follows: First vice-president, W. H. Harrison; second vice-president, Dr. G. B. Peat; executive committee, R. Earle Logan, J. W. Rawlings, A. A. Allingham and J. G. Dryden. This committee, at its first meeting, will elect three additional members. The finance and audit committee was elected as follows: R. Y. Ganong, J. W. Rawlings and J. V. Shee.

**BANK VAULT IN WATER WELL**

In One Sense, Bank of England Safe Bank in World.

In one sense the Bank of England is the safest bank in the world. Its unique protection is due to an artesian well in the bank. This well supplies the bank with its water independent of the rest of the city and is 400 feet deep and supplies 7,000 cubic feet of water an hour.

The bullion department, which holds the ingots of precious metal, is nightly submerged in several feet of water by the action of special machinery. Anyone attempting to rob the bank, then, must be an expert swimmer and diver. In the morning the water is pumped away and

## LIKE KU KLUXERS, BUT UNDISGUISED

St. Thomas Citizens Reported to Have Carried Out Raid as Vigilantes.

St. Thomas, Jan. 30.—Eleven prominent men of Kingsmill are summoned to appear before County Police Magistrate Hunt next Thursday on charges of breaking and entering the home of Morris Doan of that place on Tuesday night of last week with intent to commit an indictable offense. The report of the escape, as told to Squire Hunt today, has a Ku Klux Klan flavor.

According to the complaint, the gang broke into the Doan house late at night, just as Mr. and Mrs. Doan were preparing to retire, and asked for Lyman Doan, a son, claiming that his conduct had been displeasing to the neighborhood. It is alleged that Lyman was showing marked attention to a married woman of Kingsmill, Mr. and Mrs. Doan remonstrated with the intruders and were unceremoniously pushed out of the way. The leaders started upstairs for Lyman's bedroom, and the gang, however, heard them coming and met them at the head of the stairs with a heavy bed slat, succeeded in keeping them down, according to the story. One of the night raiders thereupon hurled a pitcher of water at Lyman, striking him on the face and inflicting a nasty wound.

Mrs. Doan succeeded in escaping from the house and calling assistance, and the gang was finally routed about midnight. The 11 were unmasked, and all have been identified. All are reported to have been armed with baseball bats and clubs, and are said to have threatened to tar and feather young Doan. Mrs. Doan's arm was injured in the melee.

## ST. PETER'S BOYS SCHOOL CLOSED

Action Taken by the School Board — Additional Sum for Lorne School Authorized.

The regular session of the school board was held last evening. The payment of \$2,500 to R. A. Corbet, contractor for the Lorne school was authorized as an additional sum above the contract on account of unexpected expense in connection with the foundations of the building.

In connection with the school needs of the three children on Partridge Island, it was decided that the federal department of agriculture be communicated with. Applications for the position of janitor for Lorne school were received. Authorization was received for a shorter day for the children affected by the closing of St. Joseph's school. Reports were received concerning the cleaning of the household science building and the wiring of Centennial school.

At the close of the meeting a short teachers' committee meeting was held and estimates for the coming year were informally discussed. At the teachers' committee meeting the board approved of the closing of St. Joseph's boys' school, as unit for use during the winter months, and it was agreed that the new girls' building should be used to accommodate both the boys and girls. ## 380,172 BOTTLES OF ASPROLAX ARE SOLD IN TWO MONTHS' TIME

New Scientific Discovery is Rapidly Becoming Sensation of the Drug Trade Throughout America.

BREAKS UP A COLD BY REMOVING CAUSE

Thousands Using It With Gratifying Results—Great Superiority Over Ordinary Remedies Clearly Demonstrated.

Remarkable as it may seem, 380,172 bottles of Asprolax have been sold in two months and Dr. Smathers' new scientific treatment for colds is rapidly becoming the sensation of the drug trade throughout America.

The great superiority of Asprolax over the ordinary remedies heretofore prescribed has been clearly demonstrated, and people everywhere have been quick to recognize it as a preparation of remarkable merit.

Right here in Canada alone 84,664 bottles have been sold and distributed within the past two months, and it is

with difficulty that the manufacturers have been able to supply the large and rapidly growing demand.

The phenomenal success of the preparation can be readily explained by the fact that it is a real specific and breaks up a cold by removing the cause, while the great majority of the present-day remedies relieve the symptoms only. Thousands of people who have used Asprolax state that it is almost magical in its effect and are recommending it to their friends.

Asprolax is a combination treatment, and acts as an anti-pyretic, which reduces the fever; an expectorant, which loosens the phlegm, relieves the congestion and stops the cough; a laxative, which opens the bowels, and an antiseptic which retards germ growth and prevents the spread of infection. It is delightful to take and produces no unpleasant after-effects whatever. Even children take it readily, and it acts on all, both old and young, with the same gratifying results.

If you are suffering from a cold, go to your nearest drug store and get a bottle of Dr. Smathers' Asprolax. Operate on the spot, take one teaspoonful, repeat the dose in one hour and again in two hours. If, by the time you have taken the third dose you are not surprised and delighted, take the bottle back and your money will be refunded without question.

Chronic coughs and persistent colds lead to serious complications, such as lung trouble and pneumonia. Only one bottle of Dr. Smathers' Asprolax is usually sufficient to break up the most obstinate cold.

**SPIRITUAL COMFORT.**

In Three Large Volumes on Steamship — Were Twelve Quarts.

When the steamship Hoboken, in Port from Santos, Brazil, discharged part of her cargo at New York, prohibition officers discovered six cases of whiskey, the property of the captain. They took it ashore, promising to return it when the vessel called at New York, on her way back to Brazil.

Now the Hoboken has been chartered to make a voyage direct to Cuba and the liquor will stay in New York indefinitely.

Boston prohibition officers, prying even between the covers of books, discovered the last twelve quarts of liquor on the ship between the covers of three large volumes which bore the title, "Souvenir of Industrial Exposition, City of St. Paul, Brazil."

**Old Clothes for Radium.**

To disguise his precious burden an officer of a Colorado radium company brought nearly 80,000 worth of radium to Philadelphia in an old battered suitcase. The precious substance was in position in the vaults of a trust company on arrival.

**WARNING! Say "Bayer" when you buy Aspirin**

Unless you see the name "Bayer" on tablets, you are not getting Aspirin at all. Why take chances?

Accept only an "unbroken package" of "Bayer Tablets of Aspirin," which contains directions and dose worked out by physicians during 22 years and proved safe by millions for

Colds Headache Rheumatism  
Toothache Neuralgia Neuritis  
Earache Lumbago Pain, Pain

Handy "Bayer" boxes of 12 tablets—Also bottles of 24 and 100—Druggists. Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monocarbonylchloride of Salicylicacid. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."
