Who Ever Knew Any Corn to Stay?

saw a corn so old, so tough as to resist a Blue-jay plaster?

There are corns which resist the first plaster—that's true. But the most stubborn corn must come out with the second.

Think how easy.

For two days the corn is forgotten. Then you take off the plaster and the corn comes out.

It comes out entirely and forever, without soreness or any discomfort.

Did you ever know anyone to use a Blue-jay without just that result?

Think how easy it is. The little plaster is applied in a jiffy. The pain stops instantly.

result?

If not, why don't you try it?
Why not end your own corns in this modern scientific way?

Now used on a million corns monthly.
