

KINDLY ACTS TO ANIMALS HERE ARE RECOUNTED

Touching Tales Are Feature of Animal Rescue League Report

330 ANIMALS ARE CARED FOR IN YEAR

Mrs. H. B. Peck Is Elected President of Humane Organization.

Several striking cases of kindness to animals marked the annual report of Miss Lillian Hazen, secretary of the Animal Rescue League, held yesterday afternoon.

Mrs. H. B. Peck, president of the Animal Rescue League at its annual meeting held yesterday afternoon at the Sign O' the Lantern rooms when the following were present: Mrs. Peck, Mrs. C. J. Coster, Miss Gray, Miss Rowling, Mrs. G. Wilford Campbell, Mrs. Newcombe, Mrs. Murdoch, Mrs. W. Edmond Raymond, Mrs. Frances Stetson, Miss Gilbert, Mrs. Griggle, Miss Furlong, Mrs. A. Fleming and Miss Lillian Hazen.

A Year's Work.

In presenting the twelfth annual report of the Animal Rescue League, Miss Lillian Hazen reported a year of very successful humane work, but also time of many troubles.

In November a new venture was started by Arthur Cunningham, son of a carmaker, and "Paddy" his terrier, in securing funds for the work of the league, and he has been very successful. The kindness of the newspaper to Arthur and his dog led the league to undertake the task of knitting mittens for the "Newists" but ideas had to be finally abandoned.

Acknowledgement was made of a grant of \$100 from the civic funds and the work of Dr. Donovan in freely giving advice. Mrs. E. Atherton Smith was to give a lecture for the benefit of the league. It was noted with pleasure that in Halifax a definite programme of educational work in the schools would be immediately arranged for by the Society for the Prevention of Cruelty and would like to see something of the same nature undertaken here.

Financial Help.

Miss Hazen told of a serious accident to Mr. Daley, of the home, in hospital for months, and of his wife trying on the work so well. The secretary expressed the view that few now question the usefulness of the work as a sanitary measure, and it was almost universally admitted that a place of refuge where animals, old, sick, injured, straying and starving, might be humanely disposed of was a great convenience and a city need.

Helping Animals.

The secretary, outlining some cases of kindness, reported that the work was warmly received in many quarters; for instance, humane people in Rockland road, who, from time to time, bring in pitiable waifs to be put to sleep at their expense. "A short time ago a young girl on West Side, noticing a mother dog and her puppy straying about in the street, took them in, found a home for a little one, went to the trouble of giving the poor female to the shelter, and gave a donation to our funds. Thanks are due to these kind and generous souls.

In Misery.

"A beautiful collie was brought by its master, his head a mass of porcupine quills, and Mrs. Daley tells me, its running down his face. "A little Pomeranian which had formed very cleverly in the management of large crowds at the Queen's Theatre, was chasing a pigeon, and its mistress called it sharply. It tried to obey, and a motor cut off its tail. Both these valuable articles were once put mercifully to sleep."

CONCERT AT HOSPITAL.

The patients at the County Hospital were treated to a very enjoyable concert last evening. All the numbers were well appreciated and different singers were very generous with their encores. The programme follows: Piano solo, Miss K. x quartette selection, Moore Bros., "The World is Waiting for the Sunrise," Miss Estelle Fox, solo, "Out of the Dark," Miss Estelle Fox, quartette selection, Moore Bros.; baritone (a) "Calm as the Night," baritone (b) "The Mighty Deep," Cyril Moore; (c) "The Roseary," (d) "The Merry Pipers," Miss Estelle Fox. Miss Myrtle Fox was the accompanist of the evening.

The Orient takes 68 per cent. of the exports of textile machinery from a United States.

C. H. Jackson's Brother Joins St. John's Fire Chief In Death

New York Telegram Brings News of Passing of S. J. Jackson.

The singularities attending the death of Charles H. Jackson, acting chief of the fire department—the second demise of a fire chief in a fortnight and the almost parallel records of Mr. Jackson and the late Chief George Blake—took another fateful turn last night when a telegram from New York announced the death of Mr. Jackson's elder brother, Samuel J. Jackson, who has been ailing for several weeks.

Mrs. James E. Dinsmore, corner of Pitt and Duke streets, is doubly bereaved today, two of her beloved brothers living in their coffins at the same time. Mrs. George Kaynes, of Needham, Mass., is the only other remaining member of the original Jackson family.

Upon the death of C. H. Jackson on Sunday midnight telegrams were sent out to relatives including the home of S. J. Jackson in New York. No reply was received acknowledging the sad news, undoubtedly due to the stress of affairs in that home, but last night word came that the head of that house had joined his brother in the Great Beyond.

Was Brass Founder. The late Samuel John Jackson, familiarly known as "Jack," was a successful brass founder, being proprietor of a foundry in New York. He learned his trade in the McAvoy works in this city as a youth. Leaving St. John before the great fire of 1877 he began his career in the American metropolis as a young man. His last visit home was in 1909 upon the occasion of the death of his father, John Jackson.

S. J. Jackson married Miss Martha Allen, of St. John, who is still living. She has two sisters, Mrs. Catherine Jackson, widow of George Jackson, formerly of H. M. customs in this city, and Mrs. White, wife of Capt. White, of the Millidgeville ferry service. Mrs. Catherine Jackson is living with her sister in New York. Mrs. Jackson's brothers are Robert, of the West St. John fire department; Frederick, with A. L. Goodwin here, and George, in the Canadian west. Two daughters also survive the former citizen, Mrs. Brown, of New York and Mrs. Oliver, of Montreal. Mr. Jackson will be buried in New York.

BUSINESS LOCALS

Don't miss the L. O. B. A. No. 18 bridge and dance at Orange Hall, 2100 Market street, Tuesday, 17th inst. 10:00-2:15. 10750-2-18

LADIES' OVERSHOES re-soled and re-heeled by us at small cost. Don't discard your shoes, send them to us. Monahan & Co., 20 North Market street. Everything in shoe repairing. Phone Main 8393. 10748-2-20

TRIP. Miss E. J. Melliday of La Vogue Millinery, 47 Germain street, has just returned from New York where she has spent some time visiting the leading style centres. 10812-2-18

CARD OF THANKS. Mr. and Mrs. F. W. Ring and family wish to thank the doctors, nurses and Sister Carmel, of the St. John Infirmary, for kindness shown their son, Perry, now recovering from a serious operation for appendicitis.

Assemblyman Asks Ban On Klan Masks. ATLANTIC CITY, N. J., Feb. 17.—Motions conducted by the Ku Klux Klan, Halloween celebrations and other observances where masks or other disguise are used would be prohibited under the terms of a bill introduced in the Legislature by Assemblyman Louis A. Cuvillier, Democrat, New York.

Heavy penalties would be imposed for appearing in such masks or disguises.

For Colds, Grip or Influenza And as a Preventive, take Laxative BROMO QUININE Tablets. A Safe and Proven Remedy. The best bears the signature of E. W. Grove. 30c. Made in Canada.

DOG SAVES CAT. BOWDOINGHAM, Me., Feb. 17.—Rover, the pet dog of Walter Pratt, and Tabby, his cat, are great friends. Tabby sleeps beside Rover at night. Pratt was aroused at night by a barking at his door. When he opened it he staggered Tabby, with one paw caught in a trap, and Rover dragging it along with the chain. The cat was wet, indicating that Rover had rescued her from a stream when her foot was caught in the trap.

HEART TROUBLE SHORTNESS OF BREATH Mrs. Geo. E. Bowman, Morrisburg, Ont., writes:—"I am writing you a few lines to let you know my experience with Milburn's Heart and Nerve Pills. Two years ago I became very poorly with my heart and nerves and whenever I took the least little bit of exercise my heart would start to jump and flutter. I could not walk up-stairs without having to sit down and rest before I was half-way up, on account of my breath becoming so short.

I commenced taking MILBURN'S HEART AND NERVE PILLS and in no time I felt a great improvement, and can now heartily recommend them to all those who are troubled with any affection of the heart."

H. & N. Pills are for sale at all drug and general stores; put up only by The T. Milburn Co., Limited, Toronto, Ont.

SAYS HER HUSBAND MISSING SINCE 1919

Mrs. Parker's Lawyer Tells of Message That Professor Had Been Spirited Away.

NEW YORK, Feb. 17.—Mrs. Evelyn Naegle Parker appeared as a witness before Supreme Court Justice Dike in Brooklyn in an Enoch Arden action against Dr. Herschel C. Parker, former professor of physics at Columbia University, inventor and mountain climber. She said that her husband had been missing since 1919, that she had written to his clubs and colleagues and made every effort to trace him, but without success.

Tale of Hypnotism. Her lawyer told the court that he had received telephone calls from an unidentified woman, who informed him, with considerable circumlocution, that Dr. Parker had been hypnotized by a Hindu named Swami Radadandan, who had taken him to India and there employed the intellectual powers of the hypnotized professor to further anti-British propaganda.

In an action for separation in 1919, Mrs. Parker said that her husband while climbing Mount McKinley and other mountains had contracted the habit of drinking whiskey and continued to do so during his return. At that time the court ordered payments of \$100 a month by Parker to his wife. The scientist was represented in that action by a lawyer, but did not himself appear. He has not been seen since. No payment of the separation allowances have been made, it was said.

BATS IN ORGAN. PARIS, Feb. 17.—One of the finest pipe organs in the world, the great organ of Notre Dame in this city, is being gradually destroyed by mildew, dead bats and swallows. The organ, with more than a dozen keyboards, has not been cleaned since 1894, and the dead birds and dirt are clogging up some of the pipes. The parish has become an extremely poor one and does not have money to repair the instrument.

RULING CAUSES STIR. BUENOS AIRES, Feb. 17.—The recent ruling of the allied council of ambassadors in Paris, that lifting by the Krupp for the furnishing of new boilers to Argentine torpedo boats is a violation of the Versailles treaty, is causing considerable comment in the Argentine newspapers.

WAR ON THE MOTH

Housewives Will be Glad if English Discovery Proves Claims Made.

LONDON, Feb. 17.—(Itavages of the clothes moth, which have been estimated to cost \$200,000,000 a year in England alone will be curtailed considerably as a result of the latest discovery of scientists. A preparation for dressing furs and fabrics has been evolved after years of experimenting, and has emerged with success. So little was known about the clothes moth that an entomologist was engaged to investigate its habits, and his work occupied two and a half years.

A film has now been produced showing various articles that have been destroyed by the moth grubs, and others, slipped in the preparation that have remained untouched.

Assurance has been given to British firms that the preparation does no harm even to delicate fabrics or to the human skin.

Cloudy teeth—dull teeth

How to make them whiter—quickly

The new way world's dental authorities advise. What to do

THOSE whiter teeth that you envy. Don't think they are beyond you. You can now lighten dull and dingy teeth—make them gleam and glisten. Modern science has discovered a new way. A method different in formula, action and effect from any you have ever used. This offers you a test. Simply use the coupon; it brings free a 10-day tube.

Look for film on your teeth—that's the cause. How to combat it. Look at your teeth. If dull, cloudy, run your tongue across them. You will feel a film. That's the cause of the trouble. You must fight it. Film is that viscous coat which you feel. It clings to teeth, gets into crevices and stays. It hides the natural luster of your teeth.

It also holds food substance which ferments and causes acid. In contact with teeth, this acid invites decay. Millions of germs breed in it. And they, with tartar, are the chief cause of pyorrhea. So dingy teeth mean more than loss of good appearance. They may indicate danger, grave danger to your teeth.

New methods now mean greater tooth beauty plus better protection from tooth troubles. Ordinary tooth pastes were unable to cope adequately with that film. Not one could effectively combat it. Harsh grit tended to injure the enamel. Soap and chalk were inadequate.

Now modern dental science has found new combatants. Their action is to curdle film and then harmlessly remove it. They are embodied in a new-type tooth paste called Pepsodent—a scientific method that is changing the tooth cleaning habits of some 50 different nations.

Don't you think it worth while to try it for 10 days; then to note results yourself? Send coupon for free 10-day test. Make the test today. Clip the coupon for a free 10-day tube. Or get a full-size tube of your druggist. Why follow old methods when world's dental authorities urge a better way? MADE IN CANADA
