## PLAY FOR GOOD PLAYGROUNDS

**West Saint John Progressive  
Association Has Extensive  
Project**

**Various Games, Wading Pool,  
Club House and Other Features—Opening June 3.**

The new West Side playgrounds are on county property, but the Department of Public Works has spent considerable money to put them into shape and make an up to date athletic field for the residents of West Saint John and Lancaster. The Progressive Association has applied for and been granted permission to supervise these grounds during this season, and anything above the ground has to be placed at the expense of the association.

It was reported to the meeting that a ball diamond had been laid out, a basketball court, dressing room was in course of construction, and arrangements made for a score board and benches, and that a pole was to be erected and a flag donated.

### TREES PLANTED

A row of trees had been planted on two sides of the grounds and arrangements were being made for tennis courts, quiet pitches and swings and teeters for children, and when funds permit the association decided to erect proper entrance to the grounds, a concrete wading pool for children, a memorial club house with verandas and rest rooms for ladies and children.

The formal opening of the playgrounds will take place on June 3 at 10 o'clock, with the raising of the flag by the Boy Scouts. The Mayor and commissioners and county councillors have been requested to be present and Mayor Potts has been asked to declare the grounds opened. A juvenile meet will be arranged for the morning and a senior meet for the afternoon open to all New Brunswick for which there are numerous entries, with medals and trophies to be presented. lighten, and inspire. You will remember your own ocean home and do all in your power to encourage our people and improve conditions for all classes. You must go much farther than this. The great war was caused by events lying wholly outside of Canada, and mainly outside of the Empire. The peace of the world is endangered today because so many people on this continent acknowledge no responsibility outside of America.

### RESPONSIBILITIES

As educated men and women you have world responsibilities. As Christians you follow One who knew no boundary of race or color. Go out from these college halls to wherever you are needed the most. Your own countries need most of all the courage, faith and guidance of the educated men and women of this country. You must go wherever opportunity of service is the greatest, but never take the facile light of self-interest for the gleam from heaven.

### Valedictory

The valedictory address of Miss Jessie McNeill was, in part, as follows:

If, as Kant said: Man's greatest concern is to know how he shall properly fill his place in the universe and understand what he must be in order to be a man, then education is, as Galsworthy has remarked: "The secret concern, indeed the only hope of the nation."

The speaker proceeded to recount the history of education, first in primitive times when men were savage and barbarian, then through the early centuries, and finally to the time of the modern world. Following the speaker, a number of students gave addresses, and the ceremony closed with a song.

### President's Report

In his annual report President G. J. Trueman said:

I see the work of the year pictured in sharp lights and shadows. The members of the faculty have worked hard and in perfect harmony. No one of them has been afraid of extra hours of work, nor considered anything a hardship that was in the interest of the students or the university group in general. There has been a remarkable feeling of comradeship between students and members of the faculty, and most of the students have been good citizens of the college community. On the other hand, and here the shadows deepen, some members have not understood the purpose for which the university was founded and is maintained and have wasted both their time and ours.

### Attendance for the year is as follows:

Graduate students ..... 5  
Pure Science ..... 188  
Arts and Letters ..... 21  
Household Science ..... 5  
Theology ..... 27  
Engineering ..... 41  
Finance and Commerce ..... 2  
Music ..... 2  
Special students ..... 297  
Less twice registered ..... 10

### Women students registered

Men students registered ..... 189  
Men in university residence ..... 137  
Women students registered ..... 50  
This makes a total registration for the year of 281 as compared with 230 last year.

### CORRESPONDENCE COURSES

In addition 17 students have been taking one or more courses by correspondence and 54 attended the summer school in July and August last. This makes a total registration of 345.

The geographic distribution for the year is: New Brunswick, 127; Nova Scotia, 98; Prince Edward Island, 11; Newfoundland, 30; Bermuda, 3; the United States, 5; elsewhere, 7.

### SUMMER SCHOOL

The summer school announced a year ago was well attended and will continue again this summer. Dr. H. E. Amos, a graduate of Queen's and Toronto universities, a teacher in the Hamilton Normal School, and experienced lecturer of the University of Toronto, has been engaged to give lectures in psychology and education. A number of our own professors, as Mr. McLeod, of the Owens' Art Gallery, Mr. D. Fullerton, M. A., of Montreal, and others will make up the staff. The summer school of the Vocational Education Board will hold its annual session in the Mount Allison buildings this summer and the two schools will be closely affiliated.

### CHURCH UNION

Before another convocation church union will have been accomplished. A new board of education will direct the general educational policy of the union church, and in a year from this summer a new board of regents will be appointed, representative of a wider constituency. No one can say just what the future has in store for Mount Allison will be judged by the work she has accomplished, by the men and women she has inspired and educated for a life of fuller service. As we look forward it is not with uncertainty or fear, but with confidence and hope. Mount Allison is going into the larger church strong, steady, expectant and with a determination to learn continually to serve both God and humanity.

### TOURIST TRAVEL

Officials at the Union Depot report that traffic is steadily increasing and they expect the summer tourist travel to start in earnest in about two weeks. The S. S. Governor Dingley, which docked here this morning after her first Boston-Saint John trip this season brought a few of the tourist van.

## CADETS PRESENT PLAY EXCELLENTLY

**Among The Breakers Given  
With Skill in Queen Square  
Theatre.**

The presentation of the two act drama, "Among the Breakers," by the Saint John Cadets in Queen Square Theatre yesterday afternoon and last evening was an ambitious piece of work for them but they gave a splendid rendition of the play. Captain D. V. Palin was instructor, assisted by G. Titus and B. Watson.

With W. E. Gregory as stage manager, Walter Evans entertained with trapeze work.

Selections by the Killies Band, under the direction of Drum Major W. Burton were a revelation of the musical possibilities of "just drums." The handling of the drum sticks of the bass drum and of the kettle drums was masterly. Loud applause followed this excellent performance. It was musical, artistic and interesting, with the bugles adding their part to the music. The Saint John people will miss a rare opportunity if they do not see the play tomorrow week being done by the cadets.

The cast was as follows:—"David Murray, keeper of Fairport Light," F. Toole; "Larry Devine, his assistant," H. Sheehan; "Hon. Bruce Hunter, his ward," F. DeVenne; "Peter Paragon, a reporter," F. X. Crilly; "Stead, Hunter's colored servant," "Minnie Daze, Hunter's niece," H. Chase; "Bess Starbright, a castaway," D. Taggart; "Mother Carey, a fortune teller," W. Clark; "Biddy Bean, an Irish girl," W. Vassie. The scenes were both in the general living room of the light keeper's house.
