It Is Feared Several Vessels Came to Grief During Gale Which Swept Britain.

London, Sept. 11 .- From all parts of the country come reports of destruction on land and sea by the terrific gale. The wind has now abated, but telegraphic communication with the outside world is only possible after much delay. In some cases the lines are entirely down. The suburbs of the metropolis are littered with trees and branches which

have been blown down.

The breakwater of the new harbor course of construction at Dover has been entirely swept away, involving the loss of many thousands of pounds. The Channel steamers from France arrived ate this morning after perilously riding out the storm for six or seven hours. Many lifeboat rescues were made, and several fatalities and many accidents are
