TROUBLE BEFORE THE CITY COUNCIL

REDUCTION MADE IN SCHOOL BOARD VOTE

An Injunction is Threatened in Connection With the Rock Bay Bridge Scheme.

(From Saturday's Daily.) my In connection with the municipal estimates this year the old trouble between the council and the school board has arisen. The council will cut down the vote for school purposes from that asked for by the school board. From year to year this difficulty arises, both in Vicoria and elsewhere.

Mayor Barnard, in explaining the situation, says that the council does not attempt to antagonize the trustee board in the least. All that is asked is that the hoard manifest the same economy as the council is forced to show.

It is pointed out that the council this year called upon to meet \$30,000 and above ordinary expenditures. Of this \$15,500 is in connection with the ance and \$4,000 of an increas which it is proposed to make in the aps for school purposes.

To do this Mayor Barnard says the council is required to maintain the strictest economy. voting only \$4,000 additional for schools there is a reduction approximat-

voted for teachers' salaries since 1901 were as follows: In 1901, \$43,219.80; in 1902 \$45 880 in 1903 \$51 446 90 in \$54.882.50, while for 1905 they sked for \$60,000 under this head. The council proposes by the present estimates to grant \$58,000, a reduction of \$2,000 inder this item.

There was another cut made on the item of maintenance. Mayor Barnard says that in 1901 there was \$13.968.83 required under this head. In 1902, \$20,-696.60 was required, the excess being argely accounted for in consequence of the High school building constituting a heavy charge. In 1903 there was \$16,140.75 expended for maintenance, and in 1904, \$15,381.21. For 1905 the trustees asked for \$17,000. The council have cut this down to the same as last year, cut-

ting off about \$1,500.

The Mayor alluded to the fact that for repairs alone \$4,300 was asked by the trustees. While he did not attempt to deny that perhaps that sum might be easily expended, yet he thought that the sum could be reduced. On the civic buildings last year \$3,180 only was ex-pended. Work which was really required and to be left undone. The trustees, he thought, might by exercising the same care as the council was forced to do, keep the expenditure on repairs within the

The question of school expenditure is a serious one. Solutions of this trouble have been offered, out no changes have been made in the new School Act which will overcome the clashing between the city councils and the boards of school

Both bodies are elected, and in conse quence the school board claims to voice public sentiment just as fully as the council, and hence resent any interfer-

ence with their estimates.

The new School Act, which comes into force next year, will put additional charges upon the city in consequence of grant on a new basis, namely, according to the number of teachers employed rather than according to the number of

pupils attending the schools. Mayor Barnard calls attention to the fact that by the new system Vancouver is made to bear a much heavier rate ac than does Victoria, which is accounted for from the fact that the verage attendance of pupils per teacher in Vancouver was much larger than in He believes it is possible, in view of this, that the trustees might enditure for salaries below

that asked for. The trustees, on the other hand, have to consider the question of keeping up the efficiency of the schools. They asked for \$1,000 for additional teachers. Whether accommodation can be found for more pupils with the teaching staff maintained as at present is one for them to de-

The trustee board contend that they will maintain the schools at the very lowest figure possible, it being inferred ng from the city treasury.

proposed to expend about \$7.500 on the work. Filling was to be done so as to shorten the length of the bridge. Now property owners about Rock Bay threat-en an injunction if any filling is allowed. They urge that if the scheme is thus carried out it will collect in the bay and then property be reduced in value
