BIBLE SOCIETY.

Eighty Third Anniversary Meeting Held Last Evening.

The eighty-third anniversary meet ing of the Auxiliary Bible Society of New Brunswick was held last evening in the York Theatre, when there was an attendance of about two hun-

dred.

Geo. E. Fairweather, the president of the local society, was in the chair, and there were present on the platform His Honor Judge Forbes, Rev. Dr. Fraser, John E. Irvine, Rev. Christopher Burnett, Rev. L. G. Macneill, Rev. Mr. Dewdney, Rev. Dr. Fotheringham, H. C. Tilley, Geo. Robertson, M. P. P., Rev. G. M. Campbell, Rev. Charles Comben, Rev. Mr. Sampson, Rev. Dr. Raymond and Rev. Mr. Rodgers.

Miss Hea presided at the piano and

gers.

Miss Hea presided at the piano and the choir was composed of members of the choirs of Centenary, St. Andrews and St. David's churches.

After the singing of the hymn, All Hall the Power of Jesus' Name, Rev. L. G. Macneill read a portion of the scriptures, Rev. Christopher Burnett following in prayer.

The chairman then announced that the collections for the year amounted to \$414, and by the Ladies' Auxillary \$220. Last year the society had sent \$300 to the parent society, and it was hoped that a similar amount would be forwarded this year. The zealous secretary, Judge Forbes, had some information to give the meeting.

His Honor Judge Forbes then addressed the gathering. He referred to the annual report of the parent society and the annual meeting held on May 7th last. As an anniversary fund it was suggested that the society raise a quarter of a million of guineas. Last year 5,060,000 copies of pamphlets, etc., were issued, the largest ever given out, showing an enormous growth and great success for the society. In the East 630 Bible women have been engaged, their power of influence being enormous, \$5,000 nagest ever given out, snowing an enormous growth and great success for the society. In the East \$30 Bible women have been engaged, their power of influence being enormous, 35,000 native women being visited weekly. During the past year four additional languages were added, with the result that the Eible is now published in \$57 distinct forms of speech. This great work occasions the employment of a large number of learned men in the preparation, as well as men in the mechanical department. The revenue received last year from subscriptions and donations was 143,000 pounds sterling, giving 14,000 pounds sterling, giving 14,000 pounds sterling, giving 14,000 pounds sterling, giving 14,000 pounds sterling more than the year previous, and thousands of pounds greater than any other year in the history of the society, and there were numerous others. Last year New Brunswick contributed \$2,000 of the \$20,000 contributed by the dominion. His honor then referred to the difficulties encountered by agents on the North Shore and in the Eata of Maine, where they were seling Bibles. In the North Shore difficulty the local government acted promptly and the Maine authorities did likewise. The agents of the society were accused of being peddlers. They were not. The society owed a vote of thanks to the authorities for the prompt action taken.

The following resolution was then moved by the Fev. G. M. Campbell and seconded by Geo. Robertson. M. P. P.:

"Resolved, That the New Brunswick

"Resolved, That the thanks of this meeting be tendered to the collectors and subscribers who have enabled the Auxiliary to give a tangible proof of its interest in the work of the parent society, and to Miss Wesley and Miss Henderson, who have been, by the Divine blessing, enabled to place the Bible in many careless homes, and awaken a fresh interest in its perusal amongst those who had almost forgotten its value."

A. L. Low seconded the motion. In diong so Mr. Low referred to the work of Miss Emma A. Wesley, the Bible woman. She had during the year made 1,556 visits and had read the Scriptures or held prayer 1,262 times; sold Bibles and Testaments, 355; portions, 134; other literature, 247; given away over one thousand portions, etc.

THE DEAD SEA.

A recent analysis of the water of the Dead Sea shows that there is over 24 per cent. of solid matter in it. The greatest part of this—over 9 per cent.—is chloride of magnesium. Next in quantity comes common salt and then chlorides of lime, potash, iron and aluminum in decreasing amounts, with traces also of salts of ammonia, silica, sulphur, etc. After a person bathes in the water the body becomes instantly covered with a thin layer of these salts. The water is extremely irritating to the eyes.
