

TURKEY'S MOVE GIVES A NEW TURN TO SITUATION

Purchase of two German Cruisers, Goeben and Breslau, breach of Neutrality — Allied Governments opposed to Germany and Austria, intend to bring Ottoman Empire to realization of infringement of Law.

Paris, Aug. 14, (6.25 a.m.)—The allied governments opposed to Germany and Austria-Hungary have agreed to bring Turkey to a realization of its obligations as a neutral power in connection with her purchase from Germany of the cruisers Goeben and Breslau.

Rome, via Paris, Aug. 14 (4.30 a.m.)—The news that Turkey had purchased the German cruisers Goeben and Breslau reached here only tonight. This new development in the war situation was discussed with interest in the political circles, where it was held that it was fraught with the possibility of grave results.

It was stated in semi-official quarters that the vessels would be a strong weapon in the hands of Turkey if Constantinople abandoned its attitude of neutrality. The belief was expressed that the purchase precludes a new position on the part of Turkey and in favor of Germany and Austria-Hungary, which is especially important as bearing on the interests of the Balkan states.

The Tribune says that the preparation made at Messina for a "noble death" by the officers of the German cruisers, who, before sailing from that port, made their wills, left the public unprepared for this farce. Seeing the impossibility of escape from the Anglo-French fleet, if they followed their original idea of molesting the transports moving French African troops, the German cruisers sought refuge in the Aegean Sea, where, with the complicity of Turkey, which continues to make love to Germany, the two vessels contemplated how they might paralyze British commerce in the Mediterranean and interrupt traffic with India.

"But closely pursued they had no alternative to taking refuge in the Dardanelles and disarming. Instead, Turkey purchased them. This is not considered permissible according to the law of nations. Never has a nation at war sold her own ships, which already had been used against an enemy."

"During the Russo-Japanese conflict many Russian ships entered Chinese and American neutral ports but they were disarmed and there awaited the end of the war."

London, Aug. 14.—A despatch to the Daily News from Rome says: "Turkey's purchase of the German cruisers Breslau and Goeben has made an unpleasant impression here. Italy probably will demand an explanation as to the future use of these ships, and also warn Turkey that she will not allow the equilibrium of the lower Mediterranean to be threatened as Italy is determined to prevent complications."

London, Aug. 14.—A Reuters despatch from Paris says: "The German flag has not been lowered on the German cruisers Goeben and Breslau, nor have their crews been landed since their arrival in Turkish waters."

The collector of customs at this port has forbidden the publication of arrivals or clearances of vessels until further notice.

FLOATED UNASSISTED.
Boston, Aug. 12.—Schr Rodney Parker (before reported) floated unassisted and anchored on the flats.

WAR TIMES.
Captains arriving at and leaving French and Mediterranean ports will find the Paris office the more economical and expedient for telegraphing news.—N. Y. Herald.

LARGE COAL CARGO.
The Dominion Coal Company's steamer Monkshead arrived at Halifax with 6,000 tons of coal. This large shipment is in anticipation of war vessels and liners visiting Halifax for bunker.

BARK FLOATED.
Bark King Malcolm, (Ital), which went ashore on School Beach about 9 miles from Yarmouth, some time ago, and was purchased at auction by Brister & Son, of Halifax, was floated last Tuesday by stmr Bridgewater and towed to Yarmouth.

ICE REPORTS.
Stmr Devona reports Aug. 1, lat 53,

lon 52 10, to lat 52, lon 54 15, passed a large berg and numerous small pieces of ice.
Stmr Alfred Nobel (Nor), reports Aug. 3, lat 48 20, lon 48 30, passed an iceberg about 100 feet high and 250 feet long.
Stmr Laurent reports July 31, lat 48 28, lon 48 51, to lat 48 37, lon 48 26 passed three large icebergs and two growlers.
The Canadian Signal Service reported ice as follows:—Point Amour, Aug. 3, many small bergs.

NOW ON THEIR WAY.
With the lifting of the fog bank which has hung over the coast for many days quite a fleet of coastwise vessels, many of which have been waiting in the harbor for a fortnight or more, all went to sea yesterday. Included in the fleet were two British schooners bound to Boston with lumber from St. John, N. B., their stop in port having been so long that several enquiries concerning them have been made the past week by the Boston consignees, they apparently having fears that they would be gobbled up by some German steamer.—Portland Argus.

PORT OF ST. JOHN.
Arrived August 13.
Steamer Louisburg, 1182, Marsters.

NOTICE TO MARINERS.
Notice is hereby given that the light on Egg Island automatic gas and whistling buoy is reported not burning. Will be re-lighted as soon as practicable.

To Cure Catarrhal Deafness and Head Noises

Persons suffering from catarrhal deafness and head noises will be glad to know that this distressing affliction can be successfully treated at home by an internal medicine that in many instances has effected a complete cure after all else has failed. Sufferers who could scarcely hear a watch tick have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from their ear.
Therefore, if you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:
Secure from your druggist 1 oz. Parmit (Double Strength), about 75c worth. Take this home, and add to it 14 pint of hot water and 4 oz. of moist have had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from their ear.
Therefore, if you know someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand to them and you will have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:
