Born

WILSON.—In Glencoe, on Wednesday, January 30, 1924, to Mr. and Mrs. Edward Wilson, a daughter.

TOWN AND VICINITY

Three cold waves already and the verdict of the groundhog yet to come.

Even with the O. T. A. in force, mercury sometimes takes a drop too much.

The latest craze is Mah Jongg, a Chinese game, which is even displacing bridge in popularity.

The Saturday afternoon story hour at the public library will be withdrawn for this week only.

Glencoe tennis dramatic club are putting on their play at Dutton Wednesday evening of this week.

Alvinston high school hockey team is expected here on Thursday evening to play the Glencoe high school team.

The sacrament of the Lord's Supper will be observed in the Glencoe Methodist church on Sunday morning next.

The iceman is busy harvesting his crop, which is a fairly good one this season, averaging about 14 inches in thickness.

Robert Ferguson, of Knox College, Toronto, gave an excellent address at the service in the Presbyterian church Sunday morning.

Duff church, Dunwich, raised \$2,803.85 for all purposes last year, with an increase in contributions to the ordinary fund over the preceding year.

Chas. M. Macfie, of Appin, was re-elected president of the Middlesex Trustees' and Ratepayers' Association at the annual meeting held in London last week.

An interesting game of hockey was played at the Carman Arena on Wednesday night of last week between Melbourne and Walkers. The score resulted in a tie, 3-3.

Appin defeated Walkers by 5 to 2 in a game of hockey at the Carman Arena on Monday night. The game was interesting and caused great excitement among the spectators.

Rev. D. G. Paton, of the Presbyterian church, will give an address at the regular meeting of the Young People's League in the Methodist church next Monday evening at 8.15.

Arthur Trestain entertained the members of the Methodist Young People's League to a jolly skating party at his pond last Wednesday evening, followed by lunch in the home.

On the 24th of January, next year, there will be a total eclipse of the sun within a very short distance of here, perhaps at Toronto, is the statement of Prof. Kingston, of London, Ontario.

For the month of February The Transcript job department is making a decided cut in the prices for letter heads, invoices and envelopes. Call or write for particulars and stock up at the reduced prices.

An alarm of fire on Friday morning at 5.30 gave the firemen a run to Dr. Mumford's residence. The stove pipes in the kitchen became overheated and caused a lot of smoke, but no harm was done.

Bruce Armstrong, of the Bank of Montreal staff here, was a member of the North Bruce league hockey team and prominent in sporting circles at Tara, where he was presented with a clock and kodak prior to his leaving for Glencoe.

At the Middlesex county council last week Allan McPherson, reeve of Glencoe, was appointed chairman of the House of Refuge committee, and was also appointed a member of the County Highways board to represent the towns and villages in the county.

The thanks of the publisher is extended to subscribers who have, when sending in their subscriptions for 1924, written a few words of appreciation of the good home paper we are publishing. Their kind words as well as their dollars help us on our way.

There is always someone, somewhere, who is anxious to buy what you have to sell. Someone who has just the article you want to buy. To complete a deal each must know of the other's wants, and there is no better or more certain way to make these wants known than through the little ads in Everybody's Column of this paper.

The devotional committee presented an interesting program at the Presbyterian Guild on Monday evening. Readings were given by Mrs. Paton and Marion Campbell. A violin duet by Donna and Ethel McAlpine and a vocal duet by Betty and Mayme Grant were pleasing musical numbers. Mrs. H. J. Jamieson and Miss Olive Watts were appointed delegates to attend the Young People's rally to be held in Knox church, St. Thomas, on February 12th.

A team of Glencoe junior hockey players went to West Lorne on Saturday evening and played a game with the junior team of that place.

The score was 5 to 1 in favor of West Lorne. The night was intensely cold and during the trip over one of the players, a son of Thomas Haggitt, had his feet so badly frozen as to require the attention of a doctor. Others of the party suffered lesser frost bites.

When a man is through with his day's work and is sitting down resting in his home, he cannot read the advertisement on the fence and the handbills and circulars that were left on the doorstep during the day and have blown away or been destroyed. He calls for the paper and there finds the merchant's announcement, and with nothing to bother his mind he reads it carefully and calls his wife's attention to it, and they decide to go to the merchant's store and examine what is advertised.

The death occurred at his residence on O'Mara street, Glencoe, on Monday morning, January 28th, of Moses D. Harrigan in his 76th year, after an illness of two months with paralysis. The late Mr. Harrigan resided on a farm near Melbourne until about two years ago when he retired and took up his residence in Glencoe. He leaves, besides his wife, two daughters, Mrs. Dan Allen and Mrs. James Willder, of Ekfrid, and one son, Charles, of Wallaceburg. The funeral was held from his late residence on Wednesday afternoon to Oakland cemetery. Mr. Harrigan was well and favorably known in the community.

Here and There

An appreciation of its wonderful exhibit at the Toronto Exhibition last year, the Canadian Pacific Railway has been awarded a special medal.

The Prince of Wales' Ranch at High River, Alberta, contributed the highest priced bull at a recent fair sale in Calgary, Princeton Crusader, which fetched \$285.

Canadian wheat exports for the twelve months ending September 30th, 1923, amounted to 225,747,861 bushels, valued at \$259,445,516, while for the twelve months ending September, 1922, they were 160,637,838 bushels, valued at \$194,577,125, according to a report of the Dominion Bureau of Statistics.

Exports of bacon from Canada to Great Britain increased almost 3,000,000 pounds during the first nine months of the current calendar year. For this period, during 1922, there were 70,988,000 pounds of Canadian bacon shipped to the British market, while this year the corresponding figure rose to 73,934,000 pounds.

The value of the asbestos exports of Canada for the 12 months ending August, 1923, according to the Dominion Bureau of Statistics, exceeded the value of those of the previous year by nearly \$3,000,000. These exports for the last year amounted to 292,646 tons, valued at \$4,275,249, compared with 122,735 tons, valued at \$5,694,551 in 1922.

The first consignment of 1,000 pounds of British Columbia Douglas fir seeds has been shipped to the British Forestry Commission, London, by the Dominion Forestry Branch, from its plant at New Westminster, British Columbia. The seeds were extracted from the cones recently gathered in the Fraser Valley districts.

The year 1923 will see a new record in Alberta coal production. It is expected the total production for the year will reach 1,000,000 tons, in comparison with less than 6,000,000 last year. The production up to November 1st is 1,500,000 tons greater than the production for the same period last year. The record production previously was in 1920, when 6,400,000 tons were produced. The pay-roll this year is expected to exceed \$15,000,000.

Great interest is being manifested in the International Dog Derby to be run at Quebec during the Winter Carnival on February 21st, 22nd and 23rd, 1924. The race is for teams of huskies driven by Indians, trappers, traders, mail carriers and others.

At present ten entries have been received and others are expected from the north shore of the St. Lawrence and from the Abitibi mining district. As navigation will soon close, it will be necessary for skiers from the latter district to travel 400 miles to reach Quebec. About five American teams will probably take part, their object being to regain the gold cup for the United States.

What might have resulted in a very serious train wreck was avoided in the nick of time on the Canadian Pacific Railway, Parry Sound division, by section foreman Conzani, who while patrolling the track near Brinnall recently discovered two large iron nuts on top of the rails, securely fastened with hay wire. The foreman had just time to unfasten the wire and remove the nuts to clear the track for a train was due in five minutes. Two boys in the vicinity admitted, after questioning, that they wired the nuts to the rails. They were sentenced to the local shelter for one month and their fathers were required to give bond and report to the authorities for two years.

Evidence given by farmers before the U.S. Tariff Commission showed that under American railway rates a bushel of what could be hauled only 35 miles for one cent, while under Canadian rates the same amount of money would move the same amount of grain 65 miles. American farmers claim that this is a saving in favor of the Canadian producer of 44 per cent, or about 8 cents a bushel. The reason given for the difference is that in the United States grain rates are based on cost of moving it to-day, while in Canada they are based on 1897 costs, when the Crew's Nest Pass agreement was made between the Government and the Canadian Pacific.

First Message by Wireless.

Sending messages by telegraph and telephone without wires thousands of miles over the oceans is a far cry from sending a wireless impulse the length of a kitchen table. But before Marconi did that others had discovered certain principles which made it possible. Not, however, until Hertz discovered the progressive propagation of electromagnetic action through space was the period of speculation and experiment near its end.

Marconi, then a young man just out of his teens, read of the experiments of Hertz, and conceived the first apparatus for demonstrating the idea. At the end of several months he had his idea of such an apparatus complete and a message in the Morse code was sent the length of an ordinary kitchen table on which the apparatus was set up. Out of this initial success the wonderful system of wireless telegraph and telephone communication of today has developed, remarks the Detroit News.

The Transcript office handles new subscriptions and renewals for the daily newspapers at a saving to the subscriber.

Low First Cost

The low price of Ford cars and trucks has been one of the great dynamic forces in the development of motor transportation. Since January 1920 the average price of Ford products has dropped 38% and Ford prices are now the lowest in the history of the industry.

And because Ford prices are so low, the worker and his family enjoy the innumerable benefits and delights of owning an automobile; the merchant and manufacturer extend their business into new and profitable fields by means of motor delivery; the farmer carries his fresh produce to the best markets with none of the old-time hardship and delay—and all for a very small initial investment.

Fifty out of every hundred cars and trucks in Canada are Fords—due to the public appreciation of Ford value.

Larger Business

If the business of any retailer in this community is to grow bigger in the years to come, it will not be a matter of accident or due to an increase of population only—it will be the result of intelligence added to energy, plus ADVERTISING.

Wherever you find a big, flourishing business you will find behind it a strong, pushing man of indomitable spirit, driven by the power of these 5 words—"I can and I will." This man advertises—he MUST deliver his message to those with ears to hear. Multiplied customers and larger turnovers are absolutely essential to his progress.

A WORD TO THE PUBLIC

Help on the business of those who show themselves eager to have your custom—who invite it and prize it enough to ask for it. Shop where you receive the best service, values, and goods. Reward with your favor those who solicit your favor by messages addressed to you each week in our advertising columns.

Liven up the dull weeks

The early weeks of 1924 will not be dull for those who go after business with special offers by Long Distance.

People have money enough and confidence enough to buy now if you will make it worth their while.

Snow, and later Spring floods, will make it difficult for travellers to call on their trade.

Long Distance will overcome the handicap.

Use the Bell to Sell. May we help you?
