

IS YOUR HEALTH WORTH \$10.00?

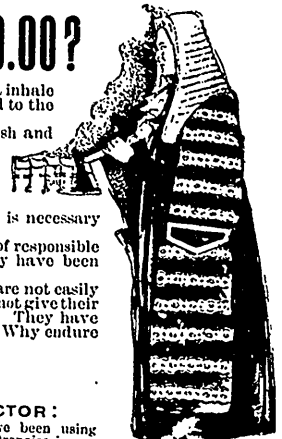

Do you know that most of us do not breathe enough, do not inhale enough oxygen? Oxygen is an essential to health; oxygen is food to the body; oxygen is nourishment to the blood.

If we don't get enough oxygen, the circulation becomes sluggish and health soon impaired. So, what we want, in order to keep in health, is oxygen, air—pure air, and more of it.

The Electropoise cures without medicine. It is simply an instrument which polarizes the body. You apply it to your ankle or wrist for an hour or so a day or night (while reading or sleeping). The result is that your body takes on freely all the oxygen that is necessary to keep it in perfect condition.

The Electropoise isn't a bolt or battery. It is sold by an organized company of responsible business men, with an Office facing Madison Square, New York, where they have been for five years.

We give herewith four strong letters from well-known people—people who are not easily "taken in," people who would not countenance an imposition, people who would not give their names for advertising purposes unless the Electropoise had really cured them. They have simply done so because they are grateful. The Electropoise lasts a life-time. Why endure when there's a cure?

FOUR TELLING TESTIMONIALS

A JUDGE:

"I have given a very thorough trial to your Electropoise for rheumatism, and find it to be a very valuable remedy for that complaint. If thoroughly used, I believe it will give satisfactory relief to those who may be similarly affected."

WM. FULLERTON (Ex-Supreme Court Judge and Asst. Justice Court of Appeals).
45 Broadway, New York.

A MINISTER:

"Having used the Electropoise for over eighteen months, I am thoroughly convinced that it is a good thing in relieving constipation, from which I had suffered for several years."

"Being with one of my sons in Colorado Springs for nearly a year, he found in the use of mine so much help in insomnia that he ordered one for himself."

Rev. BENJ. SHOVE.
1342 Lexington Ave., New York.

A DOCTOR:

"I have been using the Electropoise in my family and in my practice for the past three years with very gratifying results. I consider it without a rival in controling fever and relieving the many aches and pains of La Grippe, completing a cure in much less time than any other remedy I have ever used."

JAS. HAYS, M.D.
Cor. Howard and McLain Sts., Dayton, O.

A MERCHANT:

"Inclosed please find Check for \$10.75. Of this, \$10.00 is to pay for a new Electropoise, and 75c is for repairing an old one, which I send by express to you. I must say I have received considerable benefit from the use of the Electropoise."

McCurdy Bros., Dry Goods,
229 N. Front St., Philadelphia.
J. C. McCURDY.

The Electropoise cures rheumatism, neuralgia, dyspepsia, insomnia, catarrh and nervous troubles. Send for 112-page illustrated booklet, telling what it has done for others and will do for you.
