

Female Troubles

CURED BY

Dodds' Kidney Pills

DURING the very few years since Dodds' Kidney Pills were first offered as a kidney treatment, many women, all over this country, have been using them for what is known as Female Troubles. Until many hundreds, however, had written grateful letters, not one word was said by us of the undoubted claims of this kidney treatment as a cure for this disease, and, at this moment, there is still less reason, why we should do more than permit those who are willing and anxious to speak, to say what they think of Dodds' Kidney Pills as a remedy for this very irksome and prevalent misery.

There is no case of Female Trouble where a few doses of Dodds' Kidney Pills will not promptly relieve, and a few boxes permanently cure. And for the encouragement of any who suffer and hesitate, we refer to the following testimony, selected from hundreds of others. Such letters as these from women will never cease to be valuable, because they point out not only the cause but the cure for nearly all the miseries of their sex.

Toronto Saturday Night

MR. EDITOR.—I have made a discovery for myself which will be of the greatest value imaginable to every woman in the world if the fact can be made known. Dodds' Kidney Pills have promptly cured me of a womb-trouble that has clung to me for ten years, and which has cost me hundreds of dollars, to say nothing of untold suffering. I write this because I have never seen this medicine advertised for any other than kidney diseases. The accident of discovery was this:—I contracted a cold which caused acute distress in my kidneys, and by other signs I knew where to locate the trouble. To my surprise, after using one box of Dodds' Kidney Pills, I found that the chronic trouble, first mentioned, was scarcely observable, and I completed my unexpected cure by using two additional boxes. Thanking you for your valuable space, and trusting that this information

may be the means of bringing health to many homes as it has to that of

TEN YEARS A SUFFERER

THE DODDS MEDICINE CO.

DEAR SIRS,—I had been suffering from what I thought incurable troubles for seven teen years, when I read in the *Shelburne Free Press* of the wonderful cures made by Dodds' Kidney Pills, I sent to Toronto for two boxes. The first box I took relieved me of all bloating and full feeling in my stomach, from which I had suffered much, and I began to eat and sleep. My back and kidneys were sore all the time and my head felt so I thought I would go crazy. I thank God for the relief given me, and I also thank the maker of Dodds' Kidney Pills, as I owe my life to them. During the seventeen years I was ill I was never told by any doctor, either in Canada or this country, that I had kidney trouble.
