Halifax, N.S.  
December 22, 1936.

Rt.Hon.Arthur Meighen,  
320 Bay Street,  
Toronto, Ont.

Dear Mr.Meighen:

As you will realize, we have not been overstating conditions in the Fisheries of this Province. Many of our people engaged in the fisheries really are in desperate plight. And certainly, something will have to be done to alleviate these hard conditions.

It is not a new question with us, because the fisheries always have been neglected, and if they had received one-tenth the attention received by certain phases of agriculture in Canada they would be far better off today.

With kind thoughts and all good wishes for a Happy Holiday Season.

Yours faithfully,

W.H.Dennis
