

for a period of three years and for the re-
appointment of A.D. Dunton, Governor and Chairman
of the Corporation for a similar period.

(Minister's recommendations, P.C.5019,
5020, 5021, Nov.10, 1948).

10. The Cabinet, after discussion, approved
the Minister's recommendations and agreed that
Orders in Council be passed accordingly.

Income tax forms, 1948

11. The Minister of National Revenue
submitted two revised forms for return on individual
incomes for the tax year 1948 - T.1 short form,
applicable to individuals whose income did not
include investment income over \$1,800, and T.1 general,
applicable to all other individuals, including farmers
and fishermen.

(Draft forms T.1 short form and T.1 general,
1948).

12. Dr. McCann explained the changes made
in the new short form which would be applicable
for some 87% of all tax payers. T.1 general had
also been simplified. There would hereafter be
no special form for farmers.

The new forms had been the subject of
special consideration and discussion; expert
investigators had determined that they were a great
improvement on the old.

13. The Cabinet, after discussion,
approved the revised forms, T.1 short form and T.1
general, as submitted by the Minister.

Trans-Canada Highway; conference
with Provinces

14. The Minister of Mines and Resources,
referring to discussion at the meeting of October 20th,
reported that replies had been received from all
of the Provincial Premiers expressing their
willingness to be represented at a meeting on
the highway problem.

Mr. Duplessis had indicated that the
Quebec Minister of Highways would be available for
a meeting in November. It would, however, be
difficult to organize adequately for a conference
before the middle of the following month. It was
hoped that the Quebec government could be represented
at that time.
