

TABLE No. 3.

Average Yearly Exports of Apples from Canada and the United States in Five Year Periods from 1893 to 1912.

Period.	Average Yearly Exports.	
	Canada.	United States.
	Years ended June 30, '98 to '04. " " March 31, '07 to '12.	Years ended June 30.
	Brls.	Brls.
1893-1897.....	910,164	632,654
1898-1902.....	733,182	571,128
1903-1907.....	1,166,363	1,564,518
1907-1912.....	1,302,600	1,200,198

TABLE No. 4.

Showing Quantities of Apples, Bananas and Oranges Imported into the United Kingdom in the Years named.

(Years ended December 31st).

Years.	Apples.	Bananas.	Oranges.
	Cwts. of 112 lbs.	Bunches.	Cwts. of 112 lbs.
1900.....	2,123,541	1,287,442	5,000,380
1901.....	1,830,210	2,228,673	5,281,607
1902.....	2,843,517	2,804,700	6,518,107
1903.....	4,560,546	3,087,518	6,176,732
1904.....	3,771,781	3,910,511	5,853,254
1905.....	3,404,660	5,737,914	5,068,526
1906.....	2,806,733	6,425,704	5,230,911
1907.....	3,520,232	6,232,158	6,120,185
1908.....	3,376,579	6,365,449	5,664,041
1909.....	3,129,646	6,238,085	6,202,370
1910.....	3,242,205	6,094,579	5,400,601
1911.....	3,332,618	6,714,479	5,284,142
1912.....	3,881,947	6,078,667	5,561,719

NOTE.—The importation of bananas and oranges is shown for the reason that these fruits are the chief competitors of the apple in the markets of the United Kingdom and exercise an important influence on the consumptive demand for the latter fruit. It will be noted that in the last nine years while the quantity of apples and oranges imported yearly has varied but little, the quantity of bananas imported has almost doubled.
