**REVOLUTION'S RED FLAG**

Floats From Masthead of Black Sea Battleship.

Russian Sailors Mutiny, Kill Officers of the Kniaz Potemkin, and Seize Most Powerful Battleship of Russia's Black Sea Fleet—Main Squadron Expected at Once and Naval Battle in Russia's Civil War is in Prospect.

Odesa, June 23.—The red flag of revolution is hoisted on the masthead of the Kniaz Potemkin, Russia's most powerful battleship in the Black Sea, which now lies in the hands of mutineers. The captain and most of the officers were murdered and thrown overboard in the open sea and the ship is completely in the possession of the crew, and a few officers who have thrown in their lot with the mutineers. The guns of the Kniaz Potemkin command the city and in the streets masses of striking workmen who Tuesday fled before the volleys of the troops are now inflamed by the specialists of the mutiny and are making a bold front against the military. All day long fighting has been heard in many quarters of the city. A number of barricades have been erected and tumult and disorder reign.

The main squadron of the Black Sea fleet, consisting of the battleships, Georgi Pobedonosets, Trisviatitsa, Rostislav and Ekaterina II, with two cruisers were expected to arrive here last night and a naval battle is in prospect.

Sailor Was Shot.  
The mutiny arose from the shooting of a sailor who was presenting, on behalf of the crew, a complaint against the ship's doctor. According to one version, this sailor objected to the quality of the soup, and was immediately shot by a mess officer. The crew then rose and seized the ship and the officers, eight of whom were spared on condition that they would join the mutiny. The others were killed and their bodies thrown overboard.

The Kniaz Potemkin arrived here Tuesday night, accompanied by two torpedo boats. Early the body of the sailor was brought ashore and landed on the new mole, where it has been exposed in a semicircular manner, of whom placed coins in a basket at the head of the body towards a fund to defray the cost of the funeral, which the sailors propose to hold today, and which the strikers will make the occasion of a great demonstration.

Under the Ships Guns.  
The authorities have made no attempt to remove the body, the sailors having served notice that the ship would open fire on anyone seeking to interfere with it. A police boat visiting the spot was killed by strikers.

During the day a red flag was hoisted on the Kniaz Potemkin and members of the crew rode from ship to ship in the harbor, stopping all work thereon. The strike is now general and the rioters are growing in numbers and boldness. There were shots all day. Last night a bomb was thrown in a central place, killing its thrower and a policeman.

During the day one of the torpedo boats which accompanied the Kniaz Potemkin seized the Russian steamer Esperanza, laden with two thousand tons of coal, which the battleship has taken on.

The Harbor in Flames.  
London, June 23.—A despatch from Odesa says:

The wharves of the quays and the buildings around the harbor, as well as much shipping, are in flames. Mobs of incendiaries by armed force prevented the fire brigade from working. The troops are completely terror-stricken and are afraid to approach within range of the Kniaz Potemkin's guns.

"It is rumored," says the Standard's correspondent, "that the men of four other battleships mutinied at Sebastopol and that two of the ships are on the way to join the Potemkin."

Two hours ago a huge mob broke through the military cordon round the town and looted two large customs warehouses.

Last night the Potemkin moved closer to the breakwater with her guns still trained on the city."

May Precipitate Crisis.  
St. Petersburg, June 23.—The news of the mutiny coming when Poland is in a state of ferment, when agrarian disorders are coming to a head and when the Government is attempting a movement involving about 200,000 men, may easily precipitate a crisis, and the authorities are endeavoring to keep it from the public.

Nevertheless the Liberals and agitators have ways of spreading the tidings and the news was known here in the cafes at midnight.

The radicals hail the event as the dawn of an actual armed revolution and say Smiltchuk's (the sailor who was shot) name will go down in history as that of a martyr who precipitated a Russian revolution.

**MURDER IS CHARGED.**

Hamilton Jury Says Fieldhouse Was Killed By a Blow.

Hamilton, June 23.—This was the sensational verdict of the coroner's jury brought in last night in the Fieldhouse case: "We find that Fred Fieldhouse was murdered in a blow by either Mike Connors, or James Neelon, or Stanley Davis, in a row on Bay street, started on Friday night, June 16.

The three men are under arrest and Crown Attorney Washington stated that they will be charged with murder, and will come up for a preliminary hearing at the police court on Friday morning.

Winnipeg, June 23.—The railway crop reports for the week ending yesterday are distinctly favorable. In the great majority of places the growing grain is doing well, while in some districts it is being retarded by the heavy rainfall during the past ten days.

**SEIZED DURING NIGHT**

Unwilling Russian Reservists Marched to Barracks.

Authorities Not Mobilizing in Poland Where Troops Are Needed—Warsaw and Lodz Exempt—Conditions at Lodz Unchanged—Strike Situation Worse at Odesa—Collisions With the Cossacks and Police Continue.

St. Petersburg, June 23.—The mobilization in St. Petersburg and Moscow began at midnight yesterday. Many of the reserve men who did not respond were seized during the night at their homes. All day long men have been marched to barracks under escort. The mobilization includes Tsarkevo, Kelo, Peterhof and other towns in St. Petersburg Province. The workmen are grumbling and trouble is expected, but nothing thus far has occurred. Sixty thousand men have been called to the colors.

The proposed mobilization in Russian Poland will be confined to certain country districts of the Southern Provinces of Poland, exempting Warsaw and Lodz, where orders have been given to take in from the reserves the sufficient number of men to make up the regular complement of regiments which have been reduced in strength by assembling men to the Far East, thus keeping up the full strength of the regiments in Russian Poland.

The efforts of the Socialists since Friday to bring about a general strike here have failed completely. The strike, however, among the coal workers in Southern Poland near the German and Austrian frontiers has again broken out and it is reported here to be serious.

Vice-Admiral Choukine, commander of the Black Sea fleet, has declined to accept the post of Minister of Marine in succession to Admiral Avellan, who recently resigned.

News comes from Tambov Province that M. Bekobrazov, president of the Yalu Timber Co., who has been living on his magnificent estate in that Province, has been obliged to invoke the aid of the military not only to protect his property but to save his life.

Warsaw, June 23.—The conditions of Lodz are unchanged excepting that most of the workmen have returned to work. Out of 60,000 strikers about 1,000 from 22 factories remain out. Martial law still prevails. The streets are constantly patrolled and the liquor shops are all closed. The universal condemnation of the strike movement at Lodz has had the effect of quieting the situation, and it is expected that the remaining strikers will soon resume work.

A strike was declared yesterday at the coal and iron mines, foundries and factories in the districts of Dombrowa, Silesia, and Sosnowice.

The excitement arising from the events at Lodz and Warsaw has spread to the cities in all the old Polish Provinces along the western border of Russian Poland proper. At Minsk and Kovno policemen have been attacked in the streets and at the latter place a jail delivery occurred. At Kien about two hundred Jews making a demonstration and carrying a red flag were ridden down by gendarmes and Cossacks. Many arrests were made but no loss of life has been reported.

Where at Odesa.  
The strike situation at Odesa is growing worse. Some collisions between strikers and Cossacks have occurred, but the details received are meagre. The population is in a state of panic.

Elizabetgrad, Government of Kherson, Russia, June 23.—On account of the threatening nature of the agrarian movement in the adjoining districts the Governor of Kherson, M. Lewaschew, has arrived here. Many landlords have been summoned. Many landlords are fleeing from their estates into the city.

Sebastopol, Russia, June 23.—Eight sailors found guilty of mutiny were sentenced here yesterday to three years' imprisonment.

Ekaterinodar, Russia, June 23.—The peasants have set fire to the buildings of several land owners.

Yuzovka, Russia, June 23.—The workmen in the Karpoff mine have gone out on strike.

**King Found Guilty of Murder.**

Edmonton, June 23.—"Guilty" was the verdict of the jury in the Charles King murder case yesterday afternoon. Judge summed up strongly against the prisoner. King showed apparently little concern at the announcement of the verdict.

His Lordship asked the prisoner if he had anything to say why the sentence of death should not be passed. King said:

"I am not guilty. Last time I saw Hayward he was alive. I hope, if he is dead, and has been murdered, that the murderer will soon be found."

The judge sentenced the prisoner to be hanged Aug. 31, next, and said he could hold out no hope of executive clemency.
