

PREFACE.

THE record of another year's service is herein presented to the Baptists of Ontario and Quebec. Much diligence has been used to secure an early issue. The compiler desires to thank those who have so kindly aided him in this matter. Accuracy has been aimed at, though infallibility is not claimed. That progress has been made in all departments of our common work is manifest, for which we "thank God and take courage." With Nehemiah let us declare how that God's hand has been upon us for good, that others may strengthen their hands for the good work. Some have suggested the preparation of an elaborate summary, but the book is not so large as to require such, inasmuch as there is a carefully prepared table of contents.
