MONTREAL, SEPTEMBER 29, 1916

PARAGRAPHS.

The agent who sends in one little thousand dollar application stands better with the Company than the agent who has "fifty-seven varieties" of beautiful prospects .- Mutual Life of Canada.

Even although their patriotism be undoubted, nevertheless many Canadians are aiding the enemy by thoughtlessly frittering away the profits and earnings due to a prosperity which may be suddenly arrested by the advent of peace.-Canadian Bank of Commerce.

The total number of members of the staffs of the insurance offices in the City of London now serving with the Colors is 8,595. The proportion of men serving to the total male staffs when war broke out is 56 per cent.

* *

A short while ago I was reviewing the combined experience of American casualty companies during the last thirteen years. The fact was stated and apparently proved that this line of business only netted to the companies engaged in it an underwriting profit of but a fraction of one per cent., barely more than a half of one per cent. This was the average for thirteen years and the average for the last five years was an underwriting loss of eight-tenths of one per cent.-H. G. B. Alexander

Fraffic Returns.

The best answer to the criticism of agency cost is to prove absolutely its value and bring that proof to the public-Walter G. Cowles.

*

If it were not for the insurance papers, it is safe to say that the attendance at conventions would be materially decreased, and not only in the absence of their staff, at that.-Weekly Underwriter.

Mr. L. F. Loree, president of the Delaware & Hudson Company, estimates that on January 31, 1916, a par value of \$1,415,628,563 of American railroad stocks, bonds and other instruments were in foreign hands. This is about half the amount reported a year previously.

With all we read about the tremendously high loss ratios it is certainly illogical for us to assume that the Fire companies can consistently be parties to any arrangement that will ultimately result in great losses. But they do this whenever they encourage blacksmith agencies or start new agencies when not justified by the total premiums. -E. M. Allen.

A Kansas company now uses a clause in its life policies providing for double the face of the policy where death results from an accident, regardless of place or circumstance. An extra charge of \$1.30 per \$1,000 is made for this rider and it is stated that during the last six years the extra premiums collected have been more than sufficient to pay the claims arising under the clause.
