Cash for the Farmer

The past few years have seen Canadian farmers going into dairying more extensively. Shrewd farmers realize that dairying is not only profitable, but it provides them with a steady flow of cash. Ready money is as valuable and necessary to the farmer as to the city business, man.

If you do not keep cows, you should certainly investigate the If you no not keep cows, you should certainly investigate the Canadian dairying industry. If you already have two or more cows, you need a Standard Cream Separator so that your cows will earn the most cash for you. On Page 33 of our cream separator catalog we print a complete table of skimming results with from catalog we print a complete same of skimming results with from 1 to 20 cows, showing the difference in dollars and cents of separators skimming at .01 per cent, .02 per cent, .04 per cent, and so forth. From this table you will readily see why so many progressive Canadian dairymen have replaced their old separators

which skims down to the remarkably close figure of .01 per cent. Write for this separator catalog. The facts are worth knowing. And, if possible. are worth knowing. And, it possible, drop into our agents in your locality and see the latest model Standard with its new interchangeable capacity improvement and other splendid fea-
