

DE LAVAL Cream Separators

Make Fall and Winter Dairying More Profitable

THERE are special advantages in using a good cream separator during the fall and winter months.

The milk from cows long in lactation is hardest to cream—and likewise hardest to separate with an inferior separator.

Moreover, cream and butter prices are highest, so that the waste of gravity setting or a poor separator counts for most.

Then there's the sweet, warm skim-milk for stock feeding, alone worth the cost of a separator in cold weather.

There is surely no reason to delay the purchase of a separator or to continue the use of an inferior one.

You can't afford to wait until next spring. Let the De Laval start saving cream for you right now, and it will earn its cost by spring.

See the nearest De Laval agent at once, or if you do not know him, write us direct for any desired information.

EVERY farmer knows that his cows yield more milk and better milk when they are contented. Are your cows contented? Are they profitable? If not, make them so by doing away with your old-time wooden stalls. They gather dirt, harbour disease germs, and prevent the free circulation of life-giving air and sunlight.

LOUDEN

Perfect Barn Equipments

The LOUDEN Tubular Steel Stable Equipment is easily and quickly installed and insures cleanliness and ventilation. Its use means comfort for your cows and profits for you.

GET INTERESTED. WRITE TO DAY. Our book, "Perfect Barn Equipment," and the service of our architectural department, are free.

THE FARMERS' MARKET

It is the dwellers in the cities who consume the product of your farm. Give to them the ability to purchase your grain, your beef, your produce, and you give to yourself prosperity.

Prosperity works in a circle. If you buy from the city dweller the products of his industry you enable him to buy the product of yours—you help him to help you. If you support the manufacturers of Canada you help Canada's cities to grow and city people to be constantly employed—you create profits for yourself.

There is very little you need that is not "Made in Canada", and made just as well as it is made anywhere else, and sold as cheaply.

There is nothing "Made in Canada" that does not need your support now and always. Buy "Made in Canada" goods, all other things being equal.
