THE Columbia Gang Plow

A STRONG PLOW FOR HARD WORK.

The "Columbia" may be equipped with regular
Breaker Bottoms, thus adapting it to the stiff Prairie sod.
The service given a Gang Plow in the Northwest is very
severe, and the great popularity of the "Columbia" is
due to the fact that it is made strong throughout. The
beams are extra heavy, and the frame and bails very stiff.
That the "Columbia" is well fitted for heavy work is well
shown by its wonderful success in the Dakotas and Can-
ada. No work in the matter of plowing can be so exact-
ing that the "Columbia" will not fill the requirements.
