The Builders' and The Investors' Choice To-day

WHY?

Because—FIRST—The location on Yonge Street is the only close-in developed property for sale to-day at reasonable prices. A mile and a half nearer Bloor and Yonge than High Park District.

SECONDLY—Developed—When we claim developed we mean not only graded roads, but water, sewers, gas, electric light, telephone poles at the back of the lots, sidewalks, everything that is possible to put in a property to facilitate building and to induce people to locate, is now provided in

GLEBE MANOR

THIRDLY—Prices low in comparison with adjacent properties. Builders do not buy unless they buy right. There are over 25 houses, ranging from \$6,000 to \$10,000, already erected on Glebe Manor by builders, and something like 40 more are either in course of erection or arrangements made to start during the next few weeks.

Excavating on Yonge Street and Belsize Drive is now under way for stores and apartments. The property North and South of Glebe Manor is almost completely built up and Glebe Manor will be solid with attractive houses in a short time.

These are the reasons why Glebe Manor is the choice of builders and investors. Do you remember how quickly some districts in this city have been built up, and do you remember that even out in the High Park district you could have bought as low as \$25 per foot only three years ago, and to-day it is selling at over \$100 per foot and so will Glebe Manor. Don't lose this opportunity. Hundreds of people are making and are going to make nice profits in Glebe Manor. Why shouldn't you be one of them.

Remember Glebe Manor is 1½ miles nearer Bloor and Yonge than High Park District. Shall we send you prices, plans, and full particulars? This coupon signed and mailed will bring them. Don't delay; you have nothing to lose and much to gain.
