UNDERWRITERS MEET The regular monthly meeting of the Life Underwriter's was held in the North American Life office Monday, Sept. 11th, with a large number of the members present. Considerable nterest is being taken at these meetngs, as the business transacted and discussions held are of vital importance to the life insurance business. Several new members have been re ceived and others are expected to join at an early date. President F. Reid appointed a nominating com-nittee, as the annual business meeting and election of officers will be held the first Monday in October.

the first she has filled with great tact try, and the institution had prosper and earnestness. It will be a very di-ficult thing to replace her.

Try, and the listitation had proposed and throughout the stress and tumult of the times; the younger generation of Chinese had rallied to their club

Mr. W. F. Cockshutt, M.P., returned to the city this morning from Quebec where he went at the invitation of the Department of Railways, to witness the erection of the final span of the Quebec bridge. A special boat was provided for the senators and members from Montrea, and was on the spot shortly after 5 m. Monday morning.

When seen by a Courier man, he said that the party had witnessed the floating to position, on six big scows of the centre span, weighing 5,200 tons. They had also seen the span attached to the hangers, and the hydraulic jacks set to work, which had succeeded in raising the mass several feet clear of the scows, which had been taken away by tugs. which had been taken away by tugs. All this part of the program went like clockwork and the party started on the return to Quebec, fully convinced that the engineers had succeeded. Twenty minutes after their deporture the college occurred. their departure the collapse occurred with loss of life as stated, and a money loss of about three quarters of a million dollars, which will fall, in all probability on the contractors. Thousands were present at the cere-nony, including in addition to Mr. Cockshutt. Mr. Frank Bishop of this city, who was the guest of Col. Leonard, an old Brantford boy. Mr. Cockshutt added, "I think the bridge will undoubtedly be finally erected in the near future, as the country can-not afford to allow the \$25,000,000 already invested in the structure to be lost. Engineers were present from all parts of the world, as it would have constituted the most ermous single span in the world."
