It Pays

Messrs. Brown and Fisher of Athens passed through this town going west on a business trip last week.

Potato raisers are adopting all manner of ways to get their tubers out of the ground. Some with horse hoes, some with plow, some with spring-tooth seeders, and others dig them out the old-fashioned way with the shovel, with their T.U.U.

The farmers are gathering their roots. The drouth had a serious effect on the growth. Very little plowing done yet—the ground is too dry.

R. Haskins has traded off his old tractor engine and thrasher for a new traction and thrasher, with all the latest improvements.

Mrs. D. Phillips is very poorly.

Mrs. H. Cameron had a turn for the worse a few days ago and is very weak. She does not complain of any pain, just a breaking down of the system.

W. H. Ludbrook met with an accident two weeks ago by his horse getting frightened and running away. He is not able to get on his coat yet though the injury to his shoulder. He had just got able to work from letting his finger come in contact with the buzz saw a few weeks ago.

The wedding last week of Miss Cassie Warren to Elisha Steyens of Forfar and their wedding trip out north is the topic of conversation just now. The wedding reception at the home of the groom was an elaborate affair.

Mr. and Mrs. H. C. Davison, Miss Edith and Master Glen Davison of Brockville are visiting at Mrs. Davison's father's. They came out by the overland express.

The wedding of Miss Amanda Alguire, at the home of Miss Amanda Alguire, and old acquaintance.

J. P. Dunham is expected home this week to let his farm to some one. Report says this one of his sisters will reside at his home and the other will make her home at Mrs. Myles Lockwood's.

The new brick residence of Dr. Gardner is completed.

SOPHTON.

MONDAY, Oct. 22nd.—Mr. Fred Chant, Watertown, is home on a visit to his friends and relatives here.

Messrs. Johnson and Will Fry went to Brockville on Saturday last to visit Mr. Tom Sheffield, who is a patient at the General Hospital. They also visited the Rugby match, Brockville vs. Kingston, and found it very interesting.

Miss Maude Washburn was a guest of Miss Addie Murphy, Oak Leaf, recently.

Miss Sadie Lambert, Cardinal, returned home on Monday last.

Mrs. Ed. Johnson, who has been visiting friends in Bastard, has returned home.

Mrs. Dixon and Miss Seaman of Rockport are visiting their sister, Mrs. L. H. Washburn.

The Amateur Dramatic Society of Sophton are considering the possibility of a concert in the near future.

A supper and social dance, given by the enterprising society gentlemen of this section, at Oak Leaf Hall, on Friday night last, was a decided success. Mr. and Mrs. Ab. Johnson, Charlottetown, and Mrs. M. Johnson and Mrs. M. Geo. Godkin, Oak Leaf, played the part of chaperons in a very pleasing manner. The music was furnished by a skilled orchestra and those fortunate enough to receive an invitation were highly delighted with the entertainment.

Whether or not the clerk Ponton, accused of the sensational robbery of the Napanee bank, is guilty, remains to be seen. But one fact stands out in bold relief. It is that the bank manager and the expert police authorities suspected him of the crime from the first basing his opinion on the fact that he was a young man who was living beyond his means being a borrower, secretly, of bank funds. Here is a hint to other young men in like positions of trust. Let them live within their incomes and never let their credit be used to get a loan. They will then be less likely to be tempted to take that which does not belong to them. They will enjoy the respect of their fellows, and will not, if innocent, be likely to lie under suspicion when a crime is perpetrated in their neighborhood.—London Advertiser.

To Kill Cecil Gray.

J. S. McCallum, M.P., writing to the British Record, says that he has heard it is said that it is almost impossible to eradicate couch grass (Triticum Repens). Last year I had a couple of acres near my residence that was very full of it, and I determined to get rid of it if possible. The following plan was adopted. Last fall I had the ground ploughed as usual, and early this spring the ground became quite green with the weed. I then had it ploughed under, and in the month of August, or towards the end of June, I intended ploughing it again, but instead had it very thoroughly harrowed with the spring-toothed harrow, and immediately afterwards it was mowed with a mowing machine, or mowed with back-wheat. Crop turned out fairly well. Have since had the stubble ploughed and have not been able to discover a live couch grass root in it. I was on the ground during the life of it, if deprived of its top for any great length of time. The season was favorable, as the back-wheat grew very rapidly, thus thoroughly completing the work by smothering out the grass.

The Midnight Sun.

The Klondyke Midnight Sun is published at Dawson City, and is a very interesting publication. Price per copy \$4.50 or \$9.00 per year, in speaking of its new year Sun says: "The Midnight Sun will hereafter be printed on its own new mammoth imperforating press, driven by gasoline engine of 16-horse-power. This press and engine has just been built for us by Sandow Smith, our popular blacksmith.

As soon as our red ink, ordered last fall, arrives from San Francisco, we shall print a colored supplement for our Sunday night editions. No expense will be spared to make the Midnight Sun the finest example of advanced journalism north of Galveston.

We are confident that in a few weeks we can offer our several readers the full reports of the Associated Press. We note with interest the experiments now being made in telegraphing without wires, and we are already fixing up a receiving station on our roof. We intend to catch all the late news that may float in the upper air currents. These waves of electrical intelligence will probably have to be shaved out before they can be understood and transmitted, but we have provided for this by constructing a tower of galvanized iron and electrical receiving apparatus.

The Midnight Sun is determined to publish all the news that it can get and a great deal more.

Rev. Hober Kilborn and wife of Stantest Junction, P.Q. Mrs. B. S. McCann of Kemptonville, and Mrs. B. S. McConnon of Verdon, Ont., have been in Athens for a few days, guests of Mr. and Mrs. Charles Wing, Elgin street.

The date for the annual commencement exercises in connection with the Athens High School has been fixed for Nov. 19th. Rev. W. T. Hixford of Ottawa, the eminent English scholar and lecturer, will be present and deliver an address. A choice musical and literary programme is being prepared.

Mr. Harper, Elbe Mills, last week, in forty-eight hours, burned out several hundred stamps and roots, all clean, thus fitting 20 to 30 acres of new land for the plow, from which he hopes to get a fine crop of corn and potatoes. Hundreds of stamps on fire at one time formed an old fashioned night scene not often brought to view nowadays.

It is said that when the bicycle was first introduced in India it was not at all an uncommon thing for natives to fall down and worship it. But then even in our own enlightened land, it is not a rare thing for people to fall down before the bicycle, although it may judge from their language, that they worship it.

In a game of Rugby football played in Brockville on Saturday last between the Kingston and the Brockville teams, the Island City team, the visitors were defeated by 25 points to 6. Several Athenians witnessed the match and say it was a very exciting game. Mr. A. E. Fisher of this village, a great sportsman, was seen to cheer as one of the touching judges.

A few days ago Brockville contemplates the arrival at his home in August of a young man named Samuel James Evans, charged with seducing Cecilia Coull, under sixteen years of age and daughter of David Coull of the same township. The prisoner was brought to the County Magistrate Court and remanded until the Prosecution is ready to proceed with the case. The warrant was sworn out by the complainant, Miss Coull.

Rev. A. C. Croves of Toronto, general secretary of Epworth League work, delivered an address in the Methodist church on Monday evening before a large audience, composed principally of young people. His words were very encouraging to the Leaguers and to all engaged in Sabbath school work. He received a hearty vote of thanks from the audience. Mr. Fisher, seconded by Mr. James Blanchard, to which he made a fitting reply. Mr. A. James presided over the meeting.

For the first time in twenty years, according to the Times, Mr. G. R. Griffin of Brockville returned home last week from Chatham, Lake with an empty crock. He said "the fish would not bite," and that statement explains the poor luck of scores of other fishermen as well as his own. The salmon has been on the shoals for some time, but no large ones are reported. The catch has been phenomenally small. A well known oarsman last week saw several schools with about a dozen in each and trailed before them a tempting minnow, without result. The boatmen are reported to be making good catches in catching onto a good thing when they see it is probably due to the fact that the unusually warm weather has brought to the shoals immense numbers of small fry upon which they are feeding.

Good Roads.

The proposed visit of Mr. A. W. Campbell, provincial road instructor, to this district has aroused a great deal of interest in the subject. Rugby football is proving very popular with the young stalwarts of Athens, and the practices are well attended. A Rugby enthusiast who is coaching the boys says that the game is not only a voluntary aid of a large number of Charles-tonites who are anxious to preserve the flag.

Two Ottawa drug clerks, with more hardihood than sense, started on a wager to see which of them could swallow the greatest number of a certain pill. One of them got 75 down. A doctor was called in and with difficulty saved both their lives.

The Ontario Government has decided that all who labor in Canadian lumber camps must be Canadian, and that supplies must be purchased in Canada. This clause has been added to the alien labor regulations to meet the demand of the country for retaliation on the Americans.

A morning or so ago a cheese maker in a factory not far distant from Kingston was surprised at finding a minnow in the can sent by a certain patron. Instead of informing on the farmer the cheese maker merely intimated that in the future the patron had better strain the milk after having watered it.

Mr. C. C. James, Deputy-Minister of Agriculture, says that for some years skimmed milk has been used instead of water for the purp of mixing with lime for wh-wh-wh at the Agricultural College, Guelph. It has been found that whitewash made in this way had wearing qualities almost equal to those of the ordinary wh-wh-wh.

The question of manufacturing cheese in Canada through the month of November was considered at a general meeting of the Montreal Butter and Cheese Association held recently. It has been contended that "Novena" cheese is harmful to the trade and it looked down upon in the English market. It kills the chance of getting good prices for prime cheese which may perhaps have been made in August and held through the Autumn months.

When you see a man that is ready to mount the Tomahawk horse or the Patro's horse, or any other horse that comes in his reach, you will always find such a man worth watching, for he is sure to have some selfish motive in view.

Hood's Sarsaparilla

Do people buy Hood's Sarsaparilla to preference by any other, in fact almost to the exclusion of all others?

They know from actual use that Hood's is the best, i. e., it cures when others fail. Hood's Sarsaparilla is still made under the personal supervision of the educated pharmacist who originated it.

The question of best is just as positively decided in favor of Hood's as the question of comparative sales.

Another thing: Every advertisement of Hood's Sarsaparilla is true, is honest.
