This is our last year for 1878 and we will
sore or less with Lung Disease, Coughs, Colic,
or Consumption, yet some would die rather than
pay 75 cents for a bottle of medicine that would
cure them. Dr. A. Boschee's German Syrup has
been introduced in this county from Ger-
many, and its wondrous cures astonishes every
one that try it. If you doubt what we say in
print, cut this out and take it to your Druggist,
and get a small bottle for 10 cents and try it,
or a regular size for 75 cents. 1895-dw

NOMINATION SPEECHES.
What was Said by Candidates and Others, Mon-
day.
It will be remembered that it was necessary to
adjourn, at the town hall, Monday, to allow St.
Patrick's ward electors to nominate councillors
for that ward, and that the town meeting ad-
journing to meet in the evening at 7:30 o'clock.
The following is a report of the morning
speeches, up till twelve o'clock.
Mayor Howard thanked the electors for having
elected him as mayor of the town of Guelph for
1879, by acclamation. They have done the same
thing last year, and he felt thankful for these
marks of their esteem and approbation of his
conduct for the past year. The press, which was
very enterprising, had told them all councillors
did not do a great deal that they did not do, during
expressed throughout the year, especially about
the Amoskeag engine, but he was satisfied that
the right had been done in the end. With re-
gard to the water works he was of opinion
that the electors should elect men who would go
on with that work. One great reason why this
should be done was that there were a great many
men out of work, who would be employed if the
water works scheme were carried through. There
was now no great amount of money to be spent
on the water works, and the proposed building
building would be done this ensuing year. He
referred to the fact that no greater misfortune
could happen in any town than numbers of his
inhabitants going without work, and he thought
the \$20,000 or \$25,000 to be spent in labors on
the water works would do more to keep men em-
ployed in Guelph till the return of better times,
in the absence of all other kinds of work. He
reminded them that when the water works were
completed there would be a revenue arising from
the water works, it would result in better times
in insurance, and the payment of the \$70,000 was
extended over thirty years. Within the last two
years enough property had been burned in Guelph
to pay the entire cost of the water works, which
would furnish additional protection to property
from fire. He considered that the commission-
ers had made a good bargain for piping, and was
sure that if the construction of the water works
were delayed for two years the cost would be in-
creased at least thirty per cent. It was all very
well for gentlemen who would carry out the
scheme. He would only say a word or two re-
specting their county relations. Probably during the
ensuing year the very important question of
separation from the county would come up, and
he would remind them that they gave a good
deal to the county and got very little in return.
He did not attach any blame to their representa-
tives in the county council, but he would say that
\$8,200 was the town's quota this year, and
county council. Separation was a very
matter, and it was necessary that they should
they would be required to vote on it, and
payers should give it their most earnest con-
sideration. He then referred to the incorporation
of Guelph as a city, and said that although this
was not at all anxious to get separated from the
county it was moving in that direction. This
also was important, and should be well weighed
by every ratepayer. After urging the ratepayers
to select their best men, he again thanked them
and retired amid applause.
Mr. Sleeman was the next speaker. He had
imagined that he was going to have a municipal
vacation this year, but he had almost been forced
to accept the position he held, to-day, by the ex-
pressed wish of a very large number of ratepayers.
