

the amendment was lost, 7 to 13. The original clause was then carried. Clause two of the bill read as follows: "The exact amount to be paid annually by the Government of Prince Edward Island to the Government of Canada, and the terms of payment shall be adjusted and fixed by mutual agreement between the Federal Government and the Government of this Province on the completion of the said bridge, and such amount agreed upon shall be a charge upon the revenues of this Province." Mr. Campbell, seconded by Mr. Birch, moved that this clause be struck out and the following inserted in lieu thereof: "That no money be expended out of the revenues of this province until a proper plan, specification, estimates and all necessary data be obtained to enable the Government to lay on the table of this House the necessary information to enable this House to give an intelligent vote." Clause three was as follows: "The Lieutenant Governor in Council may in any such agreement as aforesaid make such terms for the levying and collecting of tolls upon the said bridge and for keeping the same in repair, and generally upon such other matters relating to the said bridge and the interest on the cost of construction as may be agreed upon by both governments." Mr. Shaw, seconded by Mr. J. A. McDonald, moved the following amendment: "That all after the word carried be struck out and the following be inserted in lieu thereof: 'I will make all the necessary arrangements with the Government of Canada with reference to the construction of the traffic and passenger bridge as to width of carriage and passenger roadway, the necessary protection for the travelling public on both sides of the said roadway, the material to be used in the construction of said roadway, the means whereby the road shall be kept in repair and all and every other arrangement required to safeguard the public interest.' Both these amendments were declared lost on division, and the original clause passed. Mr. McKinnon voted with the Government.

When the Speaker took the chair during the evening session, and the Chairman reported the bill agreed to, Mr. Campbell and Mr. Shaw again moved the amendment presented in opposition to the bill. The amendments were declared out of order by the Speaker, and in each case the decision of the Speaker was appealed from, but he was sustained by the Government members. Finally the report of the committee was adopted. The House then adjourned till Monday.

After routine, in the House of Commons on Monday Hughes moved that Great Britain should be given authority to enroll a brigade of Canadian officers and men for imperial service abroad. An interesting discussion followed, after which Hughes at the request of the Minister of Militia withdrew his resolution. Hughes then moved a resolution to the effect that the Government should grant transport and gratuity fees to the Dominion Association matches, at least to those men who were not hitherto prize winners. The purpose of the motion was to bring up new shots and those who are not yet hunting. The Minister of Militia said he sympathized with all the schemes to bring up the average of shooting, and declared that such was the view of General Hutton. Hughes then withdrew his motion, the purpose of which was to give an opportunity for discussion.

THE three-year-old daughter of Mr. Albert Burke, of Bay Fortune, was attacked by their dog one evening last week. According to a correspondent of the Guardian while the child was playing in the yard the dog, which is a very large animal, attacked her severely inflicting deep wounds on the face. The eldest sister Minnie ran immediately to the rescue, and succeeded in getting the little one disengaged from her mad captor. But again the dog grabbed the child and was deliberately proceeding with the work of death when the sister again clutched her precious charge and ran to the nearest building. By the time the father arrived and captured the brute which he immediately killed. Serious wounds were found on the child's face and forehead. The side of the face was so punctured by the dog's teeth as to leave the inside of the mouth exposed to view. Her recovery is expected, however.
