Previous to 9 A.M.HAND-TO-HAND FIGHTING—ENE-
MY DRIVEN BACK.

LONDON, Sept. 7. (Official.) Under cover of darkness the enemy made a counter attack against our position in the Leuze Woods. After hours of hand fighting the enemy was driven back leaving two officers and 17 men prisoners in our hands. Fighting at Glincy continues. There has been considerable artillery activity on both sides during the night and this morning, the enemy using gas and incendiary shells. East of Neuville St. Vaast the enemy exploded mines yesterday evening. We carried out a very effective bombardment of the enemy's trenches west of Lens.

BRITISH OFFICIAL—SITUATION
UNCHANGED.

LONDON, Sept. 7. A British official issued at midnight says that the general situation is unchanged. Our artillery disposed of enemy working parties east and south-east of Glincy. Between the Somme and Ancre the enemy's artillery was active during the day shelling the rear of our lines. Our artillery replied effectively and, assisted by aerial observations, successfully dealt with enemy batteries between Souchez and LaBassee Canal. Our artillery trench mortars bombarded the enemy's lines continuously northwest of Holiobek. We effectively shelled the bridge-head on the Ypres Canal. Yesterday our machines bombed an important railway junction on the enemy's lines, causing great damage to the station and rolling stock. One of the enemy's aeroplanes was bombed, and one machine destroyed on the ground, another was damaged. Many other points of military importance were bombed. Some good work was done from low altitude location positions reached by our troops. Three hostile machines were wrecked and four others driven down in a damaged condition. Two of our machines are missing.

FRENCH CAPTURE GERMAN FIRST
LINE TRENCHES.

PARIS, Sept. 7. The French have captured the German first line of trenches over a front of one mile on the Verdun front. The War Office announced to-day this breach in the German line was effected on a front northeast of Verdun between Vaux and Chapiret region and the town of Chenoil. They took 250 prisoners.

The powerful effort made by German troops to dislodge the French from the hospital farm on the Somme front was without success and the Germans were dispersed with heavy losses.

RUSSIANS BOMBARD HALICZ.

PETROGRAD, Sept. 7. The Russians bombarded the Galicia town of Halicz about 60 miles southeast of Lemberg, says a Russian official report issued to-day. The town is in flames. The Russian statement adds that Russian troops have occupied the railway line between Halicz and Zemikowitza and Wodni.

IN MACEDONIA.

LONDON, Sept. 7. An official statement reporting military operations in Macedonia, was issued to-day.

American Colonel
Gives Free Advice
To Rheumatics.

SAYS IT'S SHEER FOLLY FOR
ANYONE TO SUFFER
THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poison that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane, and then only with difficulty."

"Rheumatism took complete control of my limbs."

"Suffering was more intense than hardships on the battlefield."

"When my doctor had done his best I got Ferrozone."

"Then came a quick change."

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles."

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

Be sensible about your case. If your present medicine is useless give it up.

Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply to-day. The sooner you begin Ferrozone the quicker you'll get well. Price 50c. per box or six for \$2.50, at all dealers, or direct by mail from The Catarhozone Co., Kingston, Ont.

used by the British Government as follows: Salonika—On the Struma front several raids were made by our patrols on enemy trenches and some prisoners were captured. The Royal Navy successfully shelled a battalion of enemy infantry, concentrated opposite Neocharie. In Eastern Greek Macedonia near Oranli, on the Doiran front, there was considerable artillery activity. Hostile guns, which were shelling Vadeja, were silenced. We shot down an enemy aeroplane, which fell in flames into Lake Doiran.

RUSSIANS CROSS THE DVINA.

PETROGRAD, Sept. 7. On the northern part of the front, Russian troops crossed the Dvina in small forces and captured part of the German position.

TURKS REPULSED.

PETROGRAD, Sept. 7. The offensive movement undertaken by the Turks along the Euphrates, west of Erzerum in Turkish Armenia is said by the War Office to-day to have been repulsed. In the region of Oymak, where stubborn fighting has been underway for some time, the Russians are driving the Turks from their strong mountain defences.

A BERLIN REPORT.

BERLIN, Sept. 7. More than 20,000 Roumanians were taken prisoners when the Bulgar and German troops captured the Roumanian fortress of Turluski, says an official statement issued to-day by the German army headquarters. The statement adds that more than 100 guns were taken. Turluski, which has been evacuated by the Roumanian troops in the face of German-Bulgar attacks, is one of a series of fortresses defending the Roumanian capital from the south. It is situated on the southern bank of the River Danube opposite the Ottoman, from which town a railroad runs to Bucharest. The German army headquarters staff announced on Wednesday that German-Bulgarian troops had stormed seven Turluski works, including armoured battery positions.

AEROPLANE FACTORY DESTROYED.

NEW YORK, Sept. 7. The Journal prints the following cable from London: The destruction of the large aeroplane factory at Adlershof, near Berlin, is reported. Despatches received to-day from Copenhagen say that an explosion wrecked the structure, which then burned. Ten military aeroplanes were destroyed. No one was killed.

HEAVY LOSSES ON BOTH SIDES.

BUCHAREST, Sept. 7. The German-Bulgar forces having received numerous reinforcements, continue to attack with great violence the Roumanian fortress of Turluski, the garrison of the fortress ceaselessly counter attacking. The Roumanian statement adds that the loss on each side is very serious.

BRITISH AIR RAID.

LONDON, Sept. 7. A raid by British aeroplanes on the Turkish position at El Arish in the Sinai Peninsula, 90 miles east of the Suez, is reported.

WASHINGTON AND THE REVENUE
BILL.

WASHINGTON, Sept. 7. Secretary Lansing said to-day that no protest had been made by any foreign government against the trade reprisal provisions in the revenue bill, although the legislation had been discussed informally with the British Ambassador, Sir Cecil Spring-Rice. The Ambassador conferred again to-day with Mr. Lansing. The American Embassy at London cabled to-day that the British Foreign Office will give special consideration to difficult cases where large amounts of tonnage are not involved. Negotiations with the department to secure the elimination of certain Americans from the Black List, are officially described here as

not related to or a result of retaliatory legislation. They relate to individual negotiations.

TRADES UNION CONGRESS.

BIRMINGHAM, Sept. 7. Delegates from Canada and the United States this morning addressed the forty-eight Trades' Union Congress, representing nearly 2,000,000 working men now in session at Birmingham. Wm. D. Mahon, delegate to Congress from the American Federation of Labor, presented the standpoint of the States regarding a proposed Labor Peace Congress at the conclusion of the war. He said the States Labor leaders asked only for the call to be sent out to the workers of the nations. They did not say they would not participate unless both Germans and their allies were present. Delegate Simpson, Canadian, declared that Canada accepted the proposition and regretted the attitude of rejection of the workers of the motion today. The Congress gave an enthusiastic reception to the declaration that the workers of the States generally sympathized with the cause of the Entente Allies because they thought it represented right and liberty. At the business session the first resolution adopted was a protest against compulsory service. Then another resolution was adopted demanding that the clergy should not be exempted from military service.

IMPORTS AND EXPORTS.

LONDON, Sept. 7. Figures given out by the British Board of Trade for the month of August show that imports during the month increased by 6,716,000 pounds while exports increased by 15,231,000 pounds.

AT THE CRESCENT.

A big variety programme of five pictures including a two reel Biograph is shown at the Crescent Picture Palace to-day. "His White Lie," a two reel emotional mystery drama with Gretchen Hartmann, Claire McDowell and Chas. H. Malles. "Dreamy Dud Lost at Sea," an Essanay Cartoon laugh. "The Miser's Heart," a Biograph, made-drama with Wilfred Lucas and Robert Harron. "Acomita Indians, Pueblo, Mexico," a scenic and instructive picture. "Apple Butter," a Selig Bloom Center Comedy. Mr. Sam Rose, baritone, sings "Ireland Must be Heaven, My Mother Came From There," a new Irish ballad. Professor McCarthy presides at the piano and plays a new and classy musical programme. This is a great week-end show, take it in.

Hot Weather

Philosophy.

In this hot weather it will make us feel a little more comfortable to think of cool things, like snow and ice. So, first let us remember that there is a winter season ahead, and after that the snowy and frosty season. We shall have to be out in all kinds of weather, and the only way to enjoy life under all the different conditions is to be comfortably clad. For instance, if your feet are encased in nice, stylish, well-fitting Bear Brand Rubber Shoes, the slush of the streets will not worry you in the slightest degree. Of course, nobody is buying rubber shoes all yet, but the time will soon come, and then, isn't it better to buy one good, well-fitting pair that will last you the greater part of the winter, rather than half-dozen pairs of shoddy shoes, that you will always find broken on the mornings that the slush is inches high?

NEW MARTIN BLDG., ST. JOHN'S, SEPT. 5, 6, 7, 8.

Wounded Twice
in Two Months.

Corporal Ernest Bailey, formerly of Trinity, a member of the Fighting 25th C. E. F., was reported as wounded on Sept. 3rd. It was less than two months ago, the date being July 9th, that his mother, Mrs. Thomas Tibbs, received a wire from Ottawa informing her that her son was wounded. Corporal Bailey is a married man and is the son of the late Benjamin Bailey of patriotic Trinity.

HOUSEHOLD NOTES.

Bronze articles should be immersed in boiling water, then rubbed with a piece of flannel dipped in yellow soap-suds, then dried with a soft cloth and chamol.

It saves time in packing school lunches to do them always in the same place, with the lunch boxes, paraffine paper, sharp knife and paper napkins all close at hand.

When the vinegar crust has become

clouded, clean it by putting a teaspoonful of lye in it; let this remain for a few days, then wash out. It will be perfectly clean.

Fruit soups are made of sifted, stewed fruit thickened like cream soups with cornstarch, tapioca or arrow root and flavored to taste. They should be chilled before serving.

When colored clothing is stained with mud, let it dry and brush out all you can. Then apply a mixture of

salt and flour; let it remain on, in a dry place for a day or two, then brush off.

Brown flour to thicken brown gravies can be made by putting a pint of flour in a Dutch oven with some coals under, and keep stirring constantly until it is dark brown, but not burnt.

The French have a great preference for plain salads of romaine, endive or chicory, as well as lettuce. Water-

cross is another good relish. Cold beans, peas, fish or asparagus may each be served on lettuce leaves with a simple dressing.

Sometimes the strap which connects to the wheels of the sewing machine becomes stretched too long. To tighten it, slip it out of its groove and take off the piece of metal connecting the two ends by the aid of pliers, then cut off a trifle of the end of the strap and fasten together again.
