Christmas Parcels

The Christmas rush is great in normal times. With millions of men under arms it is a tremendous strain on all Postal Staffs, and delays are unavoidable.

In the Old Country 75 per cent. of trained Postal Officials are with the Army, and their work is being done by untrained men and women.

For the Home parcels to reach England before Christmas, the sooner they are posted the surer will their timely delivery be.

To reach our gallant lads in France, parcels should be despatched as early this month as possible.

Please pack securely. Do not use sharp edged boxes. Square boxes should always have their edges padded.

SPANISH INFLUENZA.

Instructions to Outport Magistrates.

Requests are constantly being sent to the Board of Health by Outport Magistrates for instructions in dealing with the influenza epidemic. The following points are to be noted:—

1. The disease is highly contagious.
2. It is spread very largely by contact one with another.
3. It is advisable to prohibit any unnecessary gathering of people about stores, street corners, etc.
4. Close schools, churches, theatres, etc., if there is any indication of spread of disease.
5. Avoid a panic, but take this thing seriously and co-operate with the doctors, following strictly the advice given.
6. Good ventilation is very important—therefore admit sunlight and fresh air as much as possible.
7. Do not allow the patient to spit, and when coughing cover the mouth.
8. Never neglect the precaution of washing the hands before eating or after contact with a sick person.

Quarantine is difficult to establish with any degree of success and the presence of the police in an attempt to enforce quarantine would create more panic.

Acting Medical Officer of Health.
