It Stands to Reason.

That a man who gives his whole undivided attention to one particular subject should acquire a great proficiency in it, than one whose energies are expended in different directions. This is true of the medical superintendent, and his staff of assistants, at Lakeside Institute, in their treatment of alcoholism and kindred diseases. Every fresh case adds to the experience of years, and to the number of those successfully treated. There is no sudden and dangerous deprivation of liquor; there are no bolts and bars; the patient gives up the drink habit almost unconsciously, and from that moment, takes the first step on his upward career, commencing life afresh under brighter auspices. He secured the posterior part of the dog's brain, which connects with the spinal cord, and macerated it with glycerine. After placing it in a bacteria incubator for 24 hours, he treated a couple of rabbits with the emulsion. One of the rabbits died twelve hours afterwards, showing signs of dumb rabies. By microscopic inspection Dr. Stevenson obtained evidence of evidence of hydrophobia. Robert Kelly, the man bitten by Breen's dog, is still in his usual good health.

—It is never too late to advertise a lost article in The Advertiser, whose circulation reaches in every direction through the country. On Jan. 24 Mr. John Kent, of Littlewood, while driving home over the Lambeth road, lost a valuable dog-skin mitt, which was picked up by Mr. John Curtis, about two miles from the city. Seeing the advertisement in Monday's Advertiser, Mr. Curtis today brought to this office the lost mitt, and Mr. Kent is now a firm believer in the fact that advertising pays, and that The Advertiser is the best medium.

THE BRITISH IN EGYPT.

This is the subject of the lecture to be delivered in the Y. M. C. A. Auditorium tomorrow evening by Hon. David Mills, L.L.B. It is one of the live public questions of the day, and threatens to become one of supreme importance in the near future. No one on this side of the Atlantic is better qualified to describe it than Hon. Mr. Mills, who is famous as an earnest student of history and constitutional law.

MR. MITCHELL/TREE'S RECITAL.

The talents of Mr. Thomas Mitchell-tree were rewarded and appreciated last night by a large and refined audience at Croyne Hall. Considering his blindness, Mr. Mitchell-tree's performance was marvellous. His numbers were strictly classical, being chosen from Chopin, Liszt, Schumann and other masters, and were executed with a technical precision, which even the possession of sight could not improve. Every rendering was marked by the delicate sympathy characteristic of his touch. Mr. Mitchell-tree had the able assistance of Miss Quila, soprano. She sang the solo songs of Mr. Mitchell-tree's composition in a manner that delighted the author and the audience.

Messrs. Welford Bros., rope manufacturers, of this city, have added another branch to their already large business. AROUND THE CITADEL.

Number of Beds Provided and Meals Dished Up During the Month.

The elder and the unfortunate still continue to seek refuge at the Salvation Army Shelter Home. During January the number of beds supplied was 1,266. Of course, the major portion of these sought meals, ranging from 2 to 10 cents each. The number of meals served during the month was 2,320. Out of the honest and industrious visitors, 44 men were placed in temporary situations, 19 of whom secured work from citizens, while the remaining 25 were employed at the Salvation Army wood yard and institution. On some nights as many as 40 men sought shelter there, and some were obliged to sleep on the floor, which was comfortable compared with the cold world outside.

ENDEAVORERS' RALLY.

Sixteenth Anniversary of the Society Celebrated.

Christian Endeavorers of the city celebrated the sixteenth anniversary of the society by a rally at St. Andrew's Church last night. The president of the local Christian Endeavor Union, Mr. H. J. Brown, was in charge, and among the speakers announced were Rev. John Young, of Hamilton, and Rev. Thomas Wilson, pastor of the King Street Presbyterian Church, city. The latter, however, was unable to attend.

Revs. J. W. Pedley and G. B. Sage conducted the opening exercises, and the chairman introduced Rev. Mr. Young, who gave a most earnest address. He urged that there be a closer co-operation among the young people. He didn't mean uniformity or unanimity alone. People might be of one mind concerning any matter, and yet unity was a harmonious co-operation—not co-operation in regard to one or two matters, but a something that would bring two or more individuals so in touch with one another that there

would be as it were a one-ness between them. It was something that touched the human soul and permeated the whole character. "This unity is not found among young Christians today," said Mr. Young; "hence the influence of the church is checked and the glory of God lessened, and wrong influences go out; and instead of being a help to some at times, we are stumbling blocks." This, the speaker said, was working about the spirit of the said, and if they were going to get rid of it, they must cultivate unity. If the true spirit was ruling in all Endeavorers, there could not help but be the spirit of unity and of co-operation. There was more of that spirit today than there ever was in the Christian church, but the workers were not where they should be. Under the direction of Mr. Charles Wheeler the church choir furnished excellent music.

INSTANT DEATH FROM HEART DISEASE

Heart Disease Kills.

Relief in 30 Minutes.

The most pronounced symptoms of heart disease are palpitation, or fluttering of the heart, shortness of breath, weak or irregular pulse, smothering spells, swelling of feet or ankles, nightmare, spells of hunger or exhaustion. The brain may be congested, causing headaches, dizziness or vertigo. In short, whenever the heart flutters, or tires out easily, aches or palpitates, it is diseased, and treatment is imperative. Dr. Agnew's Heart Cure has saved thousands of lives. It absolutely never fails to give perfect relief in 30 minutes, and to cure radically.
