NEW YORK, Aug. 26.—The financial communities are in a pessimistic mood, as shown in the early movement of stocks today, which was attributed to events at Washingern. The signing of the Panama bill and the Congressional deadlock have tended to for her alienate public interest, and that of protessional traders as well. Pacifics and other railway shares of primary importance were distinctly heavy. Canadian Pacific falling over 2 points from its initial gaip of 1½. Only the Coppers displayed any marked strength, the result of reports of increased foreign demand for the metal. Bonds were it-regular.

LONDON EXCHANGE. LONDON, Aug. 26. - Money was

plentiful and discount rates were firmer today. The Bank of England secured most of the \$5,000,000 South African gold offered in the man market. Rubber shares provided the feature on the stock exchange. They advanced sharply on outside speculative demand. Diamond shares continued strong and Kaffirs and copper stocks were steadily supported, but British securities eased off under realizing. Mexican rails were weak on unfavorable traffic reports.

American securities opened steady and unchanged. The trading was limited during the forenog 1 and prices

sagged. Later the market had hard-ened and closed steady. Canadian Pacific was easy. Pacific was easy.

As Mr. Sutherland is dead he will have no chance to defend himself, and the law says that in such a case all actions shall automatically cease. It would have been impossible to prove the charges, had Mr. Sutherland been alive, his friends claim. All who knew him were of the same mind.

Vestigator of the aldermanic investigating committée, came the news to-day that a corps of the ablest detectives in the country will aid Chief Flynn in ferreting out evidence of police blackmail. Some of these secret service men have proved their ability in tracing counterfeiters and other criminals. The investigating committee expects to meet tomorrow for the knew him were of the same mind.

It is merely an attempt on the part of Mr. Neely to claim the seat, as he hind the bars on charges of instigating the murder of the gambler Her-man Rosenthal was busy today preparing the defence of the accused lieutenant, Becker's lawyer, it is learned,

expects to show that he was the vic-tim of a gamblers' plot, headed by "Bald Jack" Rose and the men who have supported his confession to the district atterney. Rose and these men, counsel will assert, all have sufmen, counsel will assert, all lave all ficient reasons to seek revenge. It will be further alleged by counsel that a plot to murder Rosenthal was conceived three months before he was actually killed, but the plan was abandoned at the instance of certain East Side gamblers. It will be con-tended that Rosenthal was effered \$10,000 to go to Canada, but that when he demanded \$25,000 it was decided

to make away with him.

Supplement will probably be issued today by the district attorney's office for the appearance of landlords of property used as disorderly houses and gambling resorts. Neither wealth nor position will spare the owners being subpoenaed.
