LONDON, MONDAY, JAN. 13.

BRITAIN'S NEXT GREAT FORWARD STEP

When the great Gladstone ministry of 1868-74 was drawing to its close, and instance, is the greatest steel centre in having accomplished many tasks, the Government seemed to have little left city of the kingdom, a hive of industo do. Disraeli pointed to the cabinet try; Leicester is famous for its hosiery; row and designated them with his bit ing satire as "a range of extinct vol- for its worsteds. Nottingham, Northcanoes." Nothing like that will be said of the Asquith Government. Much has been done, but ever more looms up to do. This is not a one-man or a two-man Government, but one of many As soon as the Irish, Welsh

As the Liberals have followed and improved upon Germany in the matter of national insurance, so they are not afraid to venture in the immense mat ter of education. For long, Germany has led the way, and it is now a com-'cational efficiency. Viscount Haldane, a keen student of all things German, is especially enthusiastic for the vast deny the farmers. reform now projected by Mr. Runciman's department along and transcend-

From cabled reports of his speech at Manchester, it is evident that education in Great Britain is to be further nationalized. It is to be made more practical, more professional and technical, more democratic and free for all. Not only secondary school continuation is to be provided for all capacities. but the university education in all its manifold phases from machinery to classics and orientals will be opened to all talents by state scholarships and subsidies. Here is work for a live Government to carry through. It is a contemplated, and is now possible in the tide of Liberal success. It is necessitated by the stern rivalry of Germany. British production must be stimeducation for all will lead sooner than

lege set the new fashion for universi- their finished products. ties in England. It was fitting that a needs must be served by the local uniwersity, encouraged, not banned, by an intelligent Government.

A really thorough and democratic educational system which will draw out of all quarters of the nation its latent abilities will do for Great Britain what the revolution of 1789 did for French armies; it will make her irresistible in the fulness of her development and in the impetus of her awakened spirit. A new England is about to be called into being by the wand of triumphant Radicalism. The House of Lords pushed back reform for a moment when it beat Birrell's bill in 1908. A far wider-reaching reform is now in contemplation which no House of Lords can stop, and which will, probably, like the insurance bill, sweep away party lines in the rush of its acceptance.

AS TO WATERFRONTS.

In a letter favoring the coupling of a flat-rate policy for Niagara power with the electrification of the London and Port Stanley Railway, Mr. F. W. Daly intimates that London has no future unless she can be made practically a lakeport, adding that "if a map of the world is examined, it will be found that nearly all great cities are situated at or near the water."

London has been as close to the lake for many years as she ever will be If Mr. Daly's theory were correct, London should be Port Stanley, Brantford should be Port Dover, and Winnipeg should be Port Arthur. There was time when cities depended largely upon their locations on seas or rivers for their prosperity, but this was in the days when small sailing craft were the most advanced means of transportation, Happily today there are other factors in building up communities Although an inland city, London got a start on every other place in Western advantages of size, situation and rail- man of Canada has ever proclaimed Whatever skeptics can inquire for, way facilities. Port Stanley was once larger than London. With the lake at its doors, why has it not grown?

No one would be so foolish as to deny the benefits of cheap freight rates participation which canada the war. It is Parliament between London and the lake. The city must vote the supplies. On this factory

whether existing steam road connections, indispensable to her manufacturing and distributing interests, would

be destroyed or impaired Before London gets to Port Stanley Dull would be he of soul who could t must move St. Thomas, and St. Thomas is not exactly thinking of moving, but will be on the highway with its hand out for benefits, some 17 or 18 miles nearer to the lake than London ever can be. St. Thomas stands to gain everything and lose nothing if London plunges into an normous outlay on the London and Port Stanley Railway.

Mr. Daly might cast his eye over map of England and see whether any located on waterfronts. Sheffield, for the Empire: Birmingham is the third Halifax for its carpet works; Bradford ampton, Darlington, and other great British cities refute the claim that water transportation is everything. Paris, Madrid, Berlin and Vienna, all capitals, are far inland, and even Paris and Vienna have compara tively little maritime tonnage as river franchise bills are put through, it is ports, but they are the largest cities announced that a great, sweeping edu- in some of the largest countries of cational reform will be brought down. The United democracy and scientific education. Sir States paper trust is up in arms, and James Whitney might well note the is pressing Congress to repeal the Eyes of azure, eyes of hazel, univarsity policy to be pushed forward clause. The paper trust fought the by the British Government. Local reciprocity pact in company with the United States lumber trust. Failing in the United States, they transferred their energies to Canada. They established a literary bureau in this country with the aid of the anti-Laurier press and paraded the bogey of annexation to scare Canadian simpletons. Articles in the lumber trust organs in the United States, pretending to favor reciprocity as a step toward annexation were reproduced by collusion in the London Free Press and other Canadian dailies, as expressions of disinterested American opinion.

Today these trusts are compelled to ight in the open. Canadians may now see the naked selfishness of the interests not only in the United States, but in Canada, which were arrayed against the farmers of this country.

A free American market for Canadian pulp and paper makers by all means, but a free American market for the Canadian farmers—this is not to be endured.

LAID FOR HIM.

[Harper's.] "As I was sitting in the crowded car coming out home tonight," said Warner at the dinner table, "a woman entered and stood almost exactly in front of me."

"And you got up and gave her your seat?" queried the wife. "No," replied Warner; "another fellow got ahead of me; but I had to wait five minutes for him."

[N. W. Rowell.] repeatedly said, whenever the empire is at war, Canada, as part of the empire, is at war also. In the last 100 years, Great Britain has been engaged Confute, change sides, and still con in, I suppose, over a score of wars, and yet in none of these which have occurred outside of this continent have And pay with ratiocination. CHARACTER IN THE PSALMS

[By Special Arrangement With the Winnipeg Telegram.]

Now that illustrated editions of the Arabian Nights and other ancient classics are becoming so common, it is surprising that no great artist tries his hand at portraying the characters in the Hebrew Psalms. Actual ife was the atmosphere in which the Psalms were composed, and the peronal experiences of the Psalmist heroes and saints resulted from contact, with their fellowmen. Many are the figures, therefore, which cross the fleeting stretches of Israel's songs of starter, and has to be kicked around a the soul. There is no deliberate attempt at character-sketching in modern sense of the word. The is that he is in too fast a field us-Psalmist is content to make a reference to the divine or human figure, and leaves his appearance to imagination of the reader. Sometimes, in a vivid theophany, he gives touches of personal description, but, as a general rule, the characters that play their part in the songs of the Psalter are types rather than individuals. The good man is referred to constantly, and he posse ses all the vagueness and ideality of a race-hero as far as intimate touches of external description are concerned. But the psychological details are numerous and Hyde Park, Kelly's Siding, Gobles and New Sarum this fall, "Hide-Row" is graphic, so that when we observe the being trained by the Jeer's Correcareer of 'he typical good man throughout the Psalter, we can arrive at a very fair idea of what the ideal good man was supposed to be in the

The wicked man, the adversary, the oppressor, is also a character frequently mentioned, but details are few, he remains a type, But we cannot assert that the characters drawn by the Psalmist poets are mere abstractions; it is true they lack the analyzed richness of the here or villain of the modern Meredith novel, but it is surprising how deftly and how clearly the Psalmists in a single sentence illuminate human character. A Psalmist often tears a man's secret from his heart in simple sentence, for instance, one poet says, "The fool hath said in his heart there is no God." Nothing else is known of the man who the Psalmist had in mind, but we have got at the heart of his life; we have the key to his whole character. The Psalm ists are usually vague in their treatment of human character, but they tell us the needful word concerning the hero or villain, although there are no extremely odd or peculiar people in the Psalter, common, every-day of individuals who have swung into le life-stream of the poet and have been caught like flies in the amber of his song of sorrow or of joy, and more often still, the poet opens up his own quivering heart to our inspection, and in a cry of anguish or of trust reveals himself to us in few words, but with a frankness and directness that Lake him live for us, a man whom we have mot and who has interested and influenced us, by claiming our sympathies and ennobling our lives. * * *

In reading and re-reading the Psalms we are impressed over and over again with the fact that these Hebrew poets knew life, understood human nature, and if they had thought it needful or advisable to lift more than a corner of the cloak on their charcter, their hero or their villain, their prince or their pilgrim. their exile or their warrior, the Psalms would have been made still more entrancing with added color and movement and realism from Israel's tragic story. But the modern zest for character dissection did not prevail in those fictionless days, when real life was stirring enough without going to the romancers and character artists for matter with which to captivate the mind dulled and deadened by the monotony and commonplaceness of life.

We must be content, therefore, with our partial knowledge of characters which the Psalmists studied, and which they have described for us in quick sharp strokes, which are more suggestive than illuminating. studying the characters mentioned in the Psalter, the types and the individuals, we must read into the Psalms our own first-hand information and experience regarding human character, remembering that no character is wholly good, and no character is

HAS UPPER HAND London Dispatch Says Ottoman

TURK WAR PARTY

Cabinet Has Decided to Resign.

POWERS PREPARING NOTE

Ambassadors Working on Final Draft of Note To Be Handed the Sultan.

[Canadian Press.]

London, Jan. 13-The Turkish news. paper Tasfir-I-Efkiar says that the Ottoman cabinet has decided to resign according to a news agency dispatch received here from Constantinople, This is believed to indicate the predominance of the influence of the war

London, Jan. 13.-The issue of peace r war will rest with Constantinople after the final drafting of the note to be handed by the European powers to the Ottoman Government which will e settled at today's meeting of the ambassadors at the British foreign of-Italy will today also decide on the mode and time of presentation of the document to the Porte.

A Sign of Peace.

convocation of the Turkish grand council is considered a good sign in favor of peace as, if Turkey were ready for war, the calling tonecessary. Like that of 1878 at the time of the Russo-Turkish war the present grand council appears in the opinien of many well-informed people here destined to share with Turkish cabinet the responsibilty of making peace, on this occasion by yielding he fortress of Adrianople

This naturally is not the view held y the Ottoman peace delegates here, who persist in the opinion that nothing can possibly induce the Porte to renounce the historic Mohammedan capital of Turkey in Europe.

The envoys of the Balkan allies express the opinion that the note draftacquire greater weight if presented to the Ottoman Government collectively by all the European ambassadors in Constantinople. They think that if it should be presented by the Margrave Johann de Pallavicini, Austro-Hungarian ambassador to Turkey, in his apacity as dean of the diplomatic orps it might lose importance owing o the Austrian embitterment against ome of the Balkan States.

Roumania's Neutrality. The negotiations continue M. Jonescu, minister of the interior of Roumania, and Dr. S. Daneff, leader of the Bulgarian peace delegation. It eems that Bulgaria questions strong-Roumania's neutrality, and has de clared she is able to prove that Butrucks of war material from Germany on the way to Turkey.
