Doubts Federal Election Will Be Held Before November 28

MINISTRY IS HOLDING FINAL **MEETING TODAY**

Dissolution of Parliament Will Be Announced by Premier.

MEIGHEN AT MONTREAL

Will Make Important Address At Meeting in Quebec Metropolis.

Ottawa, Sept. 30 .- Canadian Press.-

The prime minister arrived back in Ottawa from the west this morning and later in the day presided at a meeting of the cabinet council. A number of important questions are down for stion before the premier leaves for Montreal, where he is due to speak tonight. First comes the dissolution of Parliament and the date of election.

While it is quite likely that the date will not be officially announced today, effort is being made to reach a decision as early as possible. It is not thought likely now that the election will be held

November 28, the date originally There is every hope, however, that the campaign will be over well ahead of Christmas. Secondly, there are the terms of the manifesto to be discussed. DEMAND SCHOOL RIGHTS

Prelate Declares He Is Not Asking Favors, But Simply Justice.

Bishop Fallon is leaving this evening or Peterboro, where he will spend the week-end and take up with the people n that district the question of circulat-ng petitions asking that separate schools be allowed their fair share of

'We are not asking for any favor from anybody," Bishop Fallon stated.
"All that we want is what we are entitled to under the constitution. The titled to under the constitution. The continuation school act as originally in-troduced gave to Catholic separate schools the same rights as public schools. The intent of the legisla-tion has been deliberately nullified by a egulation of the department.

"The matter has been neglected, but now petitions will be nt in by Cath-olics all over Ontario .sking that the act be amended. We simply want our rights, and I have every hope that the Government will amend the clauses and give us our school rights. It is an important matter from the standpoint of state education. In several of our communities there are large families, and because of the existing regulations the children have to be sent a onsiderable distance.

This is a costly and entirely unnece sary procedure. In the city of London we are allowed to teach fifth form work or two-year high school work after the entrance. We are permitted to do this, f education generally, and that is de sirable from all standpoints.
