I do not wish to investigate the game particularly and anything I say now cannot be but superficial. The lumbermen and we are referring here to books and he answered: and Should Have Prevented.

St. John, N. B., Oct. 5.—"Murchie was Mr. Currie's business to take the s lying." In these terse words James side of the people against the lumber- in certain counties of the province, ted by the Provincial Government to ince, so we are told, for years. Mr. investigate the charge that Hon. Wm. LeBlanc says it was not the fault of LeBlanc says it was not the fault of the man so much, it was the fault of the man so much it is no text. Their reward is in the first reports when asking to do so. This is the way the business has been in the transfer of the man so much, it was the fault of the man so much, it was the fault of the man so much it was the fault of the man so much, it was the fault of the man so much in the case. I would be pleased indeed, if having made my finding on the charges, I should feel that the business of this commission ended, but in reporting the evidence taken, as I am required to do, there is something further to be said, and that is simply this, that no matter how it was done the province was defrauded out of a substantial sum in the stumpage of this company, of which Honourable Mr. Currie was for which Honourable Mr. Currie was found to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to have prevented it, and that he was in a position to he quantity on which tunnage was paid. It was not continuity and the timpage was paid. It was not continuity whether convincing or not. I attach no importance to it. It is not relevant. The stumpage or probably some would receive a larger retity in the full that he would save the capital.

He says that a few drops of a drug called freezone, applied directly upon a tender, aching corn, instantly recorn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without infaming or even irritating the surrounding tissue.

It is claimed that a quarter of an omne of freezone obtained at any drug store will cost very little but is sufficient to remove every hard or soft corn of control of the New Brunswick log into the New Brunswick log is no.
