FULTON CHAIN

FULTON CHAIN, Jan. 5.—Yesterday
morning, the thermometer was 24
degrees below zero. This is the coldest
weather that has been felt here
for many years. Dr. Cook will have
to go back and see what is the matter
with the North Pole.

At Christmas Eve Miss Gertrude
Reed and Miss Lena McIntyre both
head dining room girls at the Van
Aukens Tavern were each presented
with a twenty dollar bill from the
household.

Master Harold Van Aukens left on
the 2.30 train this morning for New
York city where he will continue his
studies at the Business College.

THREE CHILDREN INJURED IN FIRE IN HULL SCHOOL

Little Ones Were Compelled to Jump
From the Windows

OTTAWA, Jan. 10.—The number of
people in the Hull school burned today
was 150 and the loss is \$10,000. That
there were not a number of fatalities
is regarded as miraculous as the en-
tire hundred and fifty pupils were cut
off from the exit and the single fire
escape proved entirely inadequate.
The snow was piled to some depth ar-
ound the building and the children
began jumping from all of the win-
dows.

The injuries sustained were chiefly
from one little girl jumping upon an
other who had preceded her to the
ground. While many were hurt there
were only three seriously injured. One
had both arms fractured, another's
back was hurt and the third had a
leg broken. When it was supposed
that all were out a young man put a
ladder to a window and made a thor-
ough search, finding a little seven
year old girl who had become fright-
ened hidden in a closet. Fifteen min-
utes after she was taken out the room
was a mass of flames.

TERRIFIC SEAS SWEEP SALACIA

Donaldson Liner Arrived Saturday
After Battle With the Waves

ST. JOHN Jan. 10.—The Donaldson
line steamer Salacia in command of
Captain McKelvie arrived in port Sat-
urday afternoon from Glasgow with
three passengers and a general cargo.
The steamer had a rough passage
all the way from Glasgow. On the
21st of December a northwest gale
with heavy sea was encountered. At
6 o'clock that evening the ship was
laid to for six hours. During that
time she shipped a sea which carried
away part of her shelter deck forward
breaking the ship's bell and the reels
on which the steel hawser is coiled,
also flooding the main deck forward.
The gale was so heavy that it blew
the Salacia about fifty miles out of
her course.

The steamer lag on board six Clyde
scale horses which were between
decks. They came through the storm
safely. The storm met with by the
steamer was the same which played
such havoc among the shipping along
the Nova Scotia and United States
coasts.

The Salacia has a large amount of
Scottish hard coal on board for this
port, and some cargo for the west.
She is now discharging her St. John
cargo at the new city wharf.

Dahil Carle of this town, was one
of the passengers on the Salacia.

ACCIDENT AT KENT JUNCTION

Guy Wood Run-Over by K. N. R. and
Severely Injured

RIOBROCK, Jan. 7.—On Monday
an accident which might have had
fatal results, happened at Kent Jec-
tion. While the Kent Northern engine was
shunting a refrigerator car from the
track to the main line, Guy Wood the
fourteen year old son of Jas. Wood of
Kent Jec. attempted to jump to the re-
frigerator car at the door. He missed
his footing but clung by his hands
until he swung under the car when the
lurching of the car loosened his hold
and he fell under the wheels. The car
was going slowly and he was
able to throw his body clear of the
wheels which passed over his foot,
breaking the bones. His leg was also
torn in several places. The unfor-
tunate young lad is under the care
of Dr. Gilvan of Harcourt and is doing
nicely.

Lord Milner's motto is "Damn the
consequence." His Lordship will prob-
ably carry it into effect when he
reads the election returns.

ITALIAN VILLAGE MOVING AWAY ON LANDSLIDE

PARMA, Italy, Jan. 9.—On the hills
between Parma and Piacenza which
are about thirty six miles apart an
immense landslide is slowly moving.
It is two miles in length, half a mile
in width and its depth is estimated at
75 feet. On the top of the slide is
the village of Scopino, recently occu-
pied by a thousand people. It is down
ed to destruction and the inhabitants
have evacuated the village, trans-
ferring their valuables and the fur-
niture and altars of their church to
safer ground.

my blood was out of order, and I used to
get so weak I would be compelled to stay
in bed for weeks at a time. I could not
eat, was pale and thin; every one thought
I was going into consumption. I tried
everything and different doctors until a
friend advised me to use Burdock Blood
Bitters. I did not have one bottle
used when my appetite began to improve.
I used six bottles. I gained ten pounds

FISHER FOLK IN HIGH GLEE

Last of Missing Boats Has Drifted
In

CANNO, Jan. 7.—The last of the
missing Dover fishermen reached the
land this morning when the boat Ha-
zel Maud drifted into her home port
through fog and rain. Her crew
exhausted and frozen and the boat
a wreck. Anxious eyes that had
watched from the shore the day
daybreak caught side of
boat, and a relief crew
ing out to bring her in an-
men to the harbor, where they had
been given up for dead. They tell a
thrilling story of suffering and ex-
posure in the little boat at sea since
Tuesday last. The crew consists of
Captain James Reynolds, John Rey-
nold a brother and Norman Fougere.
The Hazel Maud is the smallest
boat of the Dover fleet engaged in
winter fishing, measuring only 35 feet
over all. When the storm broke on
them on Tuesday last were only six
miles from land, but dead to leeward
and they were unable to carry en-
ough sail to reach the land.

What sail they had became so frozen
it blew away, and they drifted at
the mercy of the storm. The freezing
ing spray encased the masts and rig-
ging, and hull in a coating of ice,
which threatened to sink the boat. All
night long and all next day without
food, drink or fire they paddled the
accumulating ice to keep afloat. Dur-
ing Wednesday they saw through the
fog a schooner approaching and
they hoped for deliverance. A fog
was hoisted to the masthead and they
shouted but the schooner was not seen
and the schooner passed by. After
midnight Wednesday the wind and
frost moderated and they were able
to free the boat from ice and water,
and got out an old condemned sail
that was in the hold, and rigging it
up as a coversail they shaped a
course for the land. They seemed
due north that night and all Thurs-
day. It was thick snow and fog but
the wind was fair. They saw no sail
or steamer searching for them and
unaided they reached their home on
Friday morning about eight o'clock.
In view of the terrible experience and
hardships it is wonderful that they
are as well as they are.

WOMAN MASQUERADED FOR YEARS AS A MAN

Arrest in Montreal as a Vagrant Re-
veals her Identity

MONTREAL, Jan. 10.—Sent to gaol
on a charge of vagrancy as Marie
Dubois, the prisoner turned out to be
a woman disguised as one of the op-
posite sex, her right name being Marie
Dubois. She told the gaol officials
that she had masqueraded as a man
for twenty years, performing man's
work and associating with men as one
of their sex. She is now over 60 years
of age.

Florida experienced the coldest win-
ter that has visited this section in
several years. The thermometer in
Jacksonville registered 20 degrees and
freezing temperatures extended into
the orange belt. It is not believed,
however, that the orange trees will
be damaged.
