EMIGRATION

Canada, the London Illustrated weekly which devotes itself almost entirely to Canadian affairs, contains in the issue to hand an important interview with Mr. John Aird, the General Manager of the Canadian Bank of Commerce, who, it was recently announced, has just sailed from the old land for home.

As to the outlook for Canada on the conclusion of peace Mr. Aird was rather optimistic. "I think that after the war is over there will be a steady stream of immigration from Europe and also from the United States," he said. "We certainly will not welcome to our shores those who are our enemies at the present day, as it will take a long time to forget what has happened, and particularly the blood and treasure that we Canadians have poured out on behalf of the Empire. People do not forget these things. There is a feeling in Canada that there will have to be stricter regulations with regard to the class of individual that is allowed to come into the country. There will have to be a more rigid examination in order that undesirables may be kept out."

"I think there is a strong and growing feeling in Canada that it is desirable that the Dominion should be extended so as to take in Newfoundland, the West Indies and the British South America," continued the banker. "There is no doubt that Australia and South Africa are going to hold on to the adjacent territories we have captured. Australia is not going to allow the captured Oceanic islands to be handed back to Germany, nor is South Africa to allow any portion in the southern part of that continent to be given to the Germans or anybody else. We are fighting to win this war, and it would be a dangerous policy even to think of handing back these possessions to Germany. Such a thing would undoubtedly weaken the loyalty of the Empire. We are not fighting because we love to fight; we are fighting to keep the Empire and consolidate it. "You remind me that although a very large amount of Canadian gilt-edged securities and railway and industrial bonds are held in this country, there is a large number of more speculative investors who have put their money into land and building lots, and you ask what likelihood there is of prices returning to the boom figures of 1912-13," said Mr. Aird. "Well, we do not wish to see them return to those

prices. We would rather see a gradual improvement, and I think that has already commenced in actual city property—not in the outskirts—in places like Montreal, Toronto, Winnipeg, Vancouver and Victoria. Farm lands in the West, particularly those that are adjacent to railway lines, have held their value very well, and will continue to do so provided proper farming principles are adhered to, because such land has been bought at a very low rate, and at the existing price it is well worth the money that was paid for it.

"The real estate situation, of course, will be helped very much by immigration. Notwithstanding the war we are getting quite a few people in the west from the United States. As I have already suggested, these are from a farming point of view the best class of immigrants we receive. From their knowledge of western climatic and farming conditions, and their possession of a certain amount of money."

Steps should be taken by the different governments of the eastern provinces to make known the many advantages of the east so that some of the influx of settlers will remain in the east and help develop the country.

It is about time to hear something definite in regard to the Government's new road policy. It has promised to put the roads in good repair, but has done nothing except to send its engineers on a flying trip over the province and to get and reject tenders for macadamizing St. John's marsh road. If anything much is to be done now is the time, as the road making season will soon be over for this year. What does the new Minister of Public Works say about it?—Chatham World.

A Quebec surplus of \$211,294.69 over both ordinary and extraordinary expenditures, sounds like a real money surplus, instead of the paper surplus usually claimed by governments which add hundreds of thousands to the public debt and then declare ordinary expenses were something less than ordinary income. Quebec, under Sir Lomer Gouin, is one of the best governed of Canadian provinces.

NOT A DESERTER UNTIL BATT. HAS GONE OVERSEAS

A man who enlists in a Canadian battalion and then absents himself without leave for any period cannot be charged as a deserter unless the battalion has left for overseas, in accordance with a special enactment to the militia act passed by an order in council recently, which was specifically asked for by the military authorities themselves. Counsel, by producing this enactment in police court, succeeded in having Albert Thibert, charged with desertion from the 207th battalion, acquitted.

SMELTER FOR BATHURST

J. Fred Ryan, contractor of Frederickton, has been awarded a contract for erecting a smelting plant for the Bathurst Lumber Company. Upwards of 40 men will be employed on this work and about 400,000 bricks will be required.

"Did you get anything?" whispered the burglar on guard as his pal emerged from the window.

"No. The bloke wot lives here is a lawyer," replied the other in disgust.

"That's hard luck!" said the first.

"Did you lose anything?"

An old farmer who had been benched all his life was about to die. His wife felt it her duty to offer him such consolation as she might, and said "John, you are about to go, but I will follow you."

"I suppose so, Maria," said the old man weakly, "but so far as I am concerned you needn't be in any blamed hurry about it."

FOOD RIOTS IN.

Several Hundred Persons Fight For Supply of Flour

London, Aug. 21.—The Daily Express quotes from the Berlin Lokal Anzeiger an account of a food riot before a flour merchant's place, which the police were compelled to quell. About six hundred women were waiting outside, the story goes, when one Frau Anna Rensch and three others, in the rear of the crowd, started a flying wedge to force their way in ahead of their turn.

In the ensuing commotion, the paper says, fists, nails, teeth, even shoes and clogs were freely used. Much of the flour was scattered on the street, and Frau Rensch was arrested and fined \$15, while the store was closed for twenty-four hours by order of the police.

INQUIRY INTO SHOOTING OF THREE MEN WITHOUT TRIAL IN IRELAND

Dublin, Aug. 25.—An inquiry into the shooting without trial of three men during the rebellion in Ireland last spring was opened today in the four courts. The cases are those of F. Sheeney Skeffington, Fred McIntyre and Thomas Dickson.

The men were put to death at the orders of Captain Bowen-Colthurst, who was court-martialled and found guilty, but insane.

Publishing a weekly newspaper at \$1.00 per year is a losing game. While this price was sufficient five years ago, prices of raw material, labor, equipment, etc., have advanced to such an extent that publishers are selling their product at a loss. This loss has had to be made up by increasing advertising rates, and from profits from the job printing department.

The war has further increased the cost of production and publishers are face to face with a heavy deficit in their subscription departments. It is not possible, even if fair, to further shoulder the increased cost upon the advertisers, so we have decided to ask our subscribers to pay their fair proportion of the increased cost. Therefore on and after July 1st, 1916, the yearly subscription price of the Graphic will be \$1.50 in advance and \$2.00 to the United States.

GENUINE BARGAINS FOR ALL

S. A. POIRER

Suppose The Graphic Ceased Publication

JUST suppose this community were left without a local newspaper! What would become of its local pride? Campbellton would just be a name on a railway time-table or a post office guide. Men and women might die, or marry, or go away, or suffer accidents, or entertain friends, and you would hear about it all only through gossip. Farm sales and other announcements of interest to this particular part of the wide, wide world would have no cheap and quick way of telling you what they provide for you. Our church and schools and other institutions would have no medium of news or appeal. And this whole community would slip back and be the sport of joke-smiths.

Would City Papers Take the Place of The Graphic? You Know They Would Not.

THE point of it all is: We raised the price of The Graphic on July 1st to \$1.50 a year. Now if you "kick" and drop your subscription, you say, in effect, "This community doesn't need a local weekly. If I can do without The Graphic, all others can."

We do not believe for one moment the good people of Campbellton and county and neighborhood means to "kick" or drop their subscription to The Graphic. We expect all our subscribers to recognize the new conditions of living and publishing that have made the old dollar rate impossible to continue. But we want to let you see that your weekly newspaper at the higher rate of 3 cents a week—the price of a postage stamp—still costs an insignificant sum when you reckon up the service your weekly newspaper renders you and this whole community.

Be loyal to and proud of the community you live in. Keep it on the map.
