

SICK HEADACHE

A Symptom of Troubles Which are Removed by Dr. Morse's Indian Root Pills.

Sick headaches are not merely afflictions to be borne as patiently as possible—they are danger signals. They never come unless the digestive system is out of order, and their regular recurrence is proof positive of serious trouble and a warning that should be heeded promptly.

These terrible headaches permanently banished by Dr. Morse's Indian Root Pills.

Sick headaches are caused by Indigestion, Bilioousness or Constipation, and no amount of "headache powders" will do more than temporarily relieve them. The only way to get rid of them entirely is to cure the Constipation or Indigestion that is causing them, and nothing will do this quicker or more effectively than Dr. Morse's Indian Root Pills.

Dr. Morse's Indian Root Pills are purely vegetable in character, and are free from any harmful drug. For over fifty years they have been in constant use in Canada, and have proved most effective in regulating the bowels, aiding digestion, banishing sick headaches and restoring vigorous health.

Dr. Morse's Indian Root Pills have stood the test for over fifty years. 25c. at all dealers. W. H. Comstock Co., Ltd., Brockville, Ont.

Wedding at Mochelle

A very pretty home wedding occurred at nine o'clock Wednesday morning, April 6th, at the residence of Mr. William McLeod, Mochelle, when his daughter, Nellie M., was united in marriage to Mr. James E. Rice. The ceremony was performed by the Rev. John Reeks, of Round Hill, in the presence of the immediate friends of the family. The bride was becomingly attired in white Persian lawn and was attended by her cousin, Miss Hazel DeLaney. The groom, who is one of the most prosperous young men of Lequille, was supported by Mr. John Woodland. After the ceremony and luncheon, the newly wedded couple left by the west express for St. John and other points. The bride went away in a handsome suit of navy blue broadcloth with hat to match.

The presents from the family and friends were many and useful and bore testimony to the high esteem in which the young couple are held. Particularly noticeable among the presents was a beautiful writing desk from the congregation of St. John's church, of which the bride has been organist for a number of years.

Mr. and Mrs. Rice will be at home (Mochelle) to their friends on the 3rd and 4th of May, afternoons and evenings.—Spectator.

John D. Rockefeller would go broke if he should spend his entire income trying to prepare a better medicine than Chamberlain's Colic, Cholera and Diarrhoea Remedy for diarrhoea, dysentery or bowel complaints. It is simply impossible, and so says every one that has used it. Sold by all dealers.

PATIENT PHILOSOPHY

I'd like to have an aeroplane; A motor wagon I could use— But since these wishes are in vain I'm thankful for my feet and shoes.

It's Easy to Stop Pain

TAKE ONE OF THESE LITTLE TABLETS AND THE PAIN IS GONE.

"I use Dr. Miles' Anti-Pain Pills for Neuralgia, LaGrippe and all pains. I don't intend to be without them, for I find ready relief in them for everything I use them for."

Big Deal in Timber Limits on Labrador

Yesterday a big deal involving a quarter of a million dollars was concluded by R. W. Strong, and timber rents to the amount of \$55,412 were paid in a lump sum to the Crown Lands Department, says the St. John's, Nfld. Telegram.

Mr. Strong has been negotiating since last November a deal with a company of twelve New York capitalists for the sale of 13,580 square miles of timber land on Labrador extending from Byron's Bay, North Side of Hamilton's Inlet, to Port Manners. Mr. Strong who has two other partners with him in this property sold out their rights to the New York men for a quarter of a million dollars and forty-nine per cent of the proceeds of the industry in future.

The company of which C. D. Stanford, of Bangor, Me. is a prominent member, will be capitalized at \$25,000,000, and will proceed to the work of development of the property about the latter part of May. The intention is to erect three pulp mills at the most convenient points on that stretch of coast where the timber limits are situated. They will manufacture pulp and export to England and America. It is contemplated that exporting can be carried on at least six months of the year. Of course the work of manufacturing can be carried on all the year round.

R. W. Strong will leave St. John's about the twentieth of May if conditions permit, taking a party of about forty men, including four surveyors, axemen and chairmen. The survey party will work there all summer. When the job is well under way Mr. Strong will leave a man in charge and return in July to attend the Festival of Empire.

This undertaking when properly started will mean permanent employment of thousands of men. We congratulate Mr. Strong on the success of this enterprise, for to him is due great credit for having worked it out to the present successful issue. Besides the big pulp deal he has even a bigger undertaking in view and he hopes to be able to establish it in a short time. In fact the money, \$75,000, is now only waiting a cablegram from him to be in order to be put into the undertaking referred to. We hope to be able to give the public particulars about this second undertaking before long.

Empire Liniment Co., Ltd. Bridgetown, N. S.

This is to certify that I have used Empire Liniment with splendid results on my cow which was badly hooked, the liniment cleansing and healing the wounds in a wonderful manner.

For use in the stable I believe it has no equal.

Yours very truly, DAN McDONALD, Port Mulgrave, N. S., November 5th, 1908.

SEVENTY POUNDS OF MILK PER DAY.

In this busy age when Canada is making a name for herself with big things, water-powers, timber limits, railroads, real estate deals and so on it is perhaps as well to remind ourselves that the ordinary farm operations occasionally show very big things. We hear now and then of poor cows and low yields of milk, so we need constantly to bear in mind that huge things are accomplished by the proper combination of the brainy dairyman, good feed and the selected cow. We have plenty of good cows in Canada, some that give 10,000, 15,000 and 20,000 pounds milk a year. One or two big records were made in March by excellent cows, one lot of six in one herd giving a total yield of 9,388 pounds milk, and some giving as much as seventy pounds of milk in one day; think of it, enough to supply the needs of fifty-six ordinary people at the rate of one pint each. Such cows are not picked up every day, they are not average cows but they are an indication of what is being accomplished by brain work, applied intelligence in dairying. We need to realize that it is perfectly feasible to do a good deal more raising, not only the much needed raising of the general standard of the average cow so that the three thousand pounder is no longer "in our midst," but the raising of a good many more cows of at least the ten thousand pound type. Dairy records, of milk produced and feed consumed, will soon show which cow in the stable of the average dairyman is not worth keeping, and which will respond to more liberal feeding so as to produce milk in abundance. Cow testing associations will help every dairyman to success; join the nearest to you or assist in forming a new one.

The splendid work of Chamberlain's Stomach and Liver Tablets is daily coming to light. No such grand remedy for liver and bowel troubles was ever known before. Thousands bless them for curing constipation, sick headache, biliousness, jaundice and indigestion. Sold by all dealers.

THE FASHION PAGE.

Short Coats the Mode For the Coming Season.

It is decided that short coats will be in vogue this spring and summer, and there is a rumor that the old Eton shape will again be worn.

There are three models in short coats for the spring. One is narrow, with almost straight under arm seams, single breasted, fastened with three straight bands of braid and buttons placed well toward a plait that runs from shoulder to hem instead of a

A SIMPLE NIGHTGOWN.

dart. The sleeves are narrow, the revers run to the waist, and there is a pocket just above the hem.

Cool and delightful for hot summer nights is the nightgown pictured. The sleeves and body portion are in one, and the gathers about the neck are regulated by means of beading threaded with ribbon.

JUDIC CHOLLET.

SARTORIAL NEWS.

Charming Materials For the Summer Frocks.

The dainties this season are charming and unusually varied in coloring and design. There are lovely dainties in buff and brownish yellow and gold, and these colors in combination with white are bewitchingly cool and pretty in the striped effects. Other colors besides yellow are exploited in dot and striped designs, the dots being of the wafer kind set closely upon a background of white or color.

Copper, the newest of the metallic ribbons, with a heavy moire stripe
