

Where?

When choosing a home this important question is frequently asked. There are thousands of acres of land on the line of the Chicago, Milwaukee, and St. Paul Railway in South and North Dakota that are available.

These valuable farms are located in various beautiful rural districts, convenient to churches and schools. Besides being situated where good markets are of easy access, the soil yields an abundant crop each year. While the natural advantages are many and important, the facilities for the transportation of farm products are ample. The climate is healthy, the water good and abundant.

Prices are most favorable for those wishing to secure desirable homes. The outlook is in the direction of a rapid increase in values, thus rendering this a most opportune time to invest. It is evident that no luckier chance has been obtainable in the West than may be had at the present. The advantages of going with the tide, especially when locating in a new country, are of great moment. Now is the time to secure bargains and make a fortune in the West.
