ROYCE CRANE TYPE MOTORS

ARE BETTER SUITED FOR THE PURPOSE THAN ANY OTHER MOTOR.

Thousands are at work on ROYCE CRANES in all parts of the world.

**ENGINEERS! Compare the following details with what you are using, and
THINK IT OVER:—**

- Armature fitted with a short stiff shaft of high carbon steel, which can be removed and replaced without disconnecting the commutator.
- Phosphor bronze bearing bushes fitted on all sizes of motors (bushes are interchangeable).
- Field coils can be removed without removing armature and disturbing gearing.
- One size of carbon brush and brush holders to all sizes of motors from 3 to 60 B.H.P.
- Oil throwing impossible. Ball bearings supplied if required.
- Armature and field coils impregnated under vacuum.
- Every motor tested totally enclosed for 30 minutes, and temperature rise will not exceed 32 degrees Centigrade, and while still hot receives high voltage test.
- All parts extremely accessible; *just what you want for crane motors!*

Your enquiries are solicited for
MOTORS, CRANES, TELFERS, CAPSTANS, WINCHES.
