

coast, though most of the people are Episcopalians. If they succeed, he will likely get occasionally to Little Bay. Our day school flourishes having nearly 100 pupils enrolled.

NEW KINCARDINE AND TOBIQUE, REV. J. A. F. SUTHERLAND.

Mr. Sutherland has charge of the Presbyterian people in a range of country 70 miles in length from by S to 10 in breadth. The facts may be thus given in brief:—

1. New Kincardine—four preaching places—enjoys two-thirds of the Ministers time, with evening meeting for prayer and the study of the Scriptures—four Sabbath Schools maintained, conducted at the respective Stations by Elders and Assistants—170 names on the roll.

Lord's Supper dispensed at New Kincardine Church and Upper Kintore—eight added to the Communion Roll, \$203 raised for Church purposes.

2. Tobique—includes Tilley Settlemen and Three Brooks.—Aided in this district in summer by a Catechist—Mr. A. P. Logan doing good work last season. Ordinarily it has a third of Mr. Sutherland's time. Lord's Supper dispensed at Tilley Settlement and at Three Brooks—three added to Roll—two families added and fifteen infants baptized—\$100 expended on Church—and \$77 for support of those who laboured among them.

Substantial progress in both districts—Though absent from home more than half his time Mr. Sutherland cannot overtake the work. It demands another Minister, and should have one. The Lord has owned Mr. Sutherland's work, and a student assistant has been associated with him in labour for this summer.

BEDFORD, WAVERLY, AND SACKVILLE, REV.

G. CHRISTIE.

This little but interesting charge, too weak to be enrolled in the supplemented list, is making progress to the satisfaction of the Presbytery of Halifax. Mr. Christie has extended his lines to Sackville, preaching monthly, and bringing the Gospel to the door of a number of Presbyterian families from 4 to 6 miles from Bedford, and who could not or rather would not attend there. Audience from 50 to 100 one-half consisting of persons of other denominations and of no denomination. The whole district is of a character that missionary labour is greatly needed.

THE WORK OF THE STUDENTS

must be gathered chiefly from the subjoined summary, expressed chiefly in figures

SUMMARY OF MISSION STATIONS.

| Presbyteries.            | No. Miss. Fields. |     | No. of Preaching Stations. |      | No. of Sabbath. |      | Average Sabbath Attendance |       | No. Communicants. |     | No. Families. |       | No. Families visited. |       | Average Attendance at Sabbath School. |    | Amount paid by Stations. |    | Amt. re'd from H. M. Com. during the year. |    |

The figures will afford some indications of the work of these thirty-two young men, some of them students from our own colleges, with a good sprinkling from the American Presbyterian Seminaries. By these out lines they may be followed in their work, to mining districts and fishing harbours on the coasts of Newfoundland, Cape Breton and Nova Scotia proper; as well as on the Fundy and Chaleur Bay shores. You will find them in Colchester, Cumberland, Annapolis and
