Montreal General Hospital, visited daily at Noon.

University Lying-in Hospital open to the Students of the Midwifery Class.

In each of the Courses above specified, five lectures per week are given, except in the Courses of Clinical Medicine, and of Medical Jurisprudence, in the former of which two, and in the latter three only, during the week, are given. The Lecturers in the different departments, will illustrate their respective subjects, by the aid of preparations, plates, apparatus, specimens, etc. etc.

The Medical Library, which is furnished not only with books of reference, but the usual elementary works, will be open to matriculated students, without charge, under the necessary regulations. Access to the Museum will be allowed at certain hours.—The Demonstrator of Anatomy will be daily in the Dissecting Rooms to oversee and Direct the students.

N. B.—The tickets of this University being recognized by the Universities and Colleges of Great Britain, students who purpose completing their professional education in the mother country, will obtain an important advantage by having attended its Courses.

MEDICAL JOURNALS,

Published by RICHARD and GEORGE S. WOOD, No. 261 Pearl Street, New-York.

THE BRITISH AND FOREIGN MEDICO-CHIRURGICAL REVIEW, AND JOURNAL OF PRACTICAL MEDICINE.—Published Quarterly, at \$3 per Annum.

THE MEDICO-CHIRURGICAL REVIEW had, for very many years, a reputation unequalled by any other journal, as the leading Medical Journal of Europe, and a standard work in medical literature. Being republished in this country for more than 25 years, it was universally known to the Medical Profession here, and was pronounced by some of the most eminent "the best medical journal extant." The British and Foreign Medical Review, though not so long established, was nearly as well known; and was conducted with such spirit and talent, as fully to entitle it to rank with its illustrious predecessor. These two works are now united, (under the above title,) and will be sustained by the united contributions of the writers, whose talents have given such eminence to both. Of the merits of the work produced by this combination, nothing need be said. The American republishers hope, however, to increase its value by their

ADDENDA TO THE MEDICO-CHIRURGICAL REVIEW, OR QUARTERLY RETROSPECT OF AMERICAN PRACTICAL MEDICINE AND SURGERY:

A valuable Abstract of American Medical Intelligence; compiled from all the American Medical Journals; which will be sent, *gratuitously*, to all who remit payment to the publishers, postage free, in advance:

WOOD'S QUARTERLY RETROSPECT OF AMERICAN AND FOREIGN PRACTICAL MEDICINE AND SURGERY.

Price One Dollar per Annum, *n Advance.*

This work is designed to meet the demands of this "high-pressure" age, by furnishing the physician and surgeon the means of keeping pace with the progress of knowledge in their respective departments of science, at the *least possible cost of time and money*. It consists of condensed reports of cases and their treatment, with occasional remarks; and abstracts of the medical literature of the day, collected from the whole field of medical science, American and Foreign, with announcements of all new publications of interest to the profession.

Its plan is, in the main, that which has been so much approved in "Braithwaite's Retrospect," and "Ranking's Abstract;" with the superadded advantages of a fuller view of *American Medical Literature and Science*, a more frequent emission, and reduction of price; and it is hoped will meet with the general approbation of the Medical Profession. It was suggested by some members of the profession as a desideratum in medical literature not yet supplied by any journal; and the publishers intend, if well sustained in the undertaking, to spare neither pains nor expense to make it worthy of the most extended patronage.

It will be seen at once that, at a price so low, it can only be supported by a very extensive circulation; but the advantages offered are such, that this is confidently anticipated; and they request all to whom this is sent who approve the plan, to aid them by bringing it to the notice of their professional brethren.

Authors and Publishers wishing their works reported, will please forward copies.
