

THE REMARKABLE THERAPEUTIC
ACTION OF

LACTO-GLOBULIN

upon the gastro intestinal tract is due to its richness in the natural enzymes or soluble ferments of fresh milk.

The rapid and complete assimilation of its proteids and phosphates through the action of these enzymes makes Lacto-Globulin of greater value than absolutely any other known form of nutriment.

Lacto-Globulin is unique as a food in Tuberculosis, Typhoid, Scarlatina, Rheumatism, Diabetes, Bright's Disease, Diarrhœa, Vomiting, Dyspepsia and all gastric affections. It presents a practical result based on the researches of Daniloff, Lunin, Buechner, Concetti, and Escherich. The physiological action of Lacto-Globulin is theoretically fully confirmed by the experiments of Pawlow.

ANALYSIS ON EVERY PACKAGE.

5 oz. Package, 50c; 15 oz. package, \$1.00.

Sold through the Drug Trade only.

A scientific treatise, "The Hand-Book of Lacto-Globulin," free samples, and any information wished for, will be supplied to physicians on application to the

Lacto-Globulin Co.,

LIMITED.

795 CRAIG STREET, MONTREAL.
