

Alphozone Tablets

ONE GRAIN

Alphozone is now offered in one grain tablets instead of two grains as heretofore.

This convenience will be readily appreciated.

One tablet in two fluid ounces of water makes about a 1-1000 solution and is IMMEDIATELY AVAILABLE.

Alphozone is 3300 TIMES as germicidal as U. S. P. Hydrogen Peroxide; 75 TIMES as germicidal as Carbolic Acid; equally as POWERFUL as Mercury bichloride; and is NON-POISONOUS, ODORLESS, STAINLESS and NON-EXPLOSIVE.

Chemically pure succinic peroxide, $(\text{COOH CH}_2\text{CH}_2\text{CO})_2\text{O}_2$, --unmixed with any other substance-- that is the composition of Alphozone. We will send a sufficient amount without charge to any physician on request, to enable him to determine its value for himself.

90 Tablets to the bottle at \$1.15 per bottle.
