

SPECIAL RECIPES FOR PHYSICIANS PRESCRIBING.

The therapeutic value of the following selected recipes in pill form, prepared and coated by the process of WM. R. WARNER & CO., which assures solubility and potency of medicinal effects, should command the attention of the medical profession.

Pil: Aloin, Belladonna and Strychnine. (W & CO.)

Aloin.....	1.5 gr.
Strychnine.....	1.60 gr.
Ext. Belladonna.....	1.8 gr.
Medical properties, Tonic, Laxative. Dose, 1 to 2 pills.	

PIL: IODOFORM ET FERRI. (W & CO.)

Iodoform.....	1 gr.	Ferrum Redactum.....	1¼ gr.
Medical properties, Tonic, Alterative.		Dose, 1 to 2 pills.	

Iodoform, therapeutically, is alterative, nervine, sorbefacient, anti periodic and anæsthetic. As an alterative it acts with more rapidity than other medicines of that class, in doses of one, two, or three grains, repeated thrice daily. As a nervine it is prompt and efficient; while it gives nervous strength, it calms speedily the most severe pains. Its sorbefacient properties are manifested with some degree of slowness. Five to seven grains, given in broken doses in rapid succession, produce a powerful anti periodic effect.

Its anæsthetic properties are of local significance.

It is rapidly absorbed into the blood.

Accumulative effects have not been observed.

Iodoform is destitute of any local irritant action and has that advantage over all other iodic remedies.

It may be administered, with reasonable expectation of success, in the following diseases:

NEURALGIA of every description, chronic rheumatism, consumption, SCROFULA, ophthalmia, chronic ulcerations and skin diseases, syphilis and certain affections of the neck of the bladder and prostate gland, and whenever a powerful ALTERNATIVE agent is needed. The quality of Iodoform is greatly enhanced, in a majority of cases, by the addition of pure iron, Fer. per hydroy.

PIL: BLENNORRHAGIC. (W & CO.)

Terebinth Alba.....	1½ grs.	Camph. Monobrom.....	¾ gr.
Ext. Humuli.....	¾ gr.	Res. Podophyl.....	¾ gr.
Dose, 1 to 2 pills.			

Medical properties.—Is the remedy *par excellence* for chronic Blennorrhœa, uncomplicated with organic stricture, very frequently effecting a speedy cure in gleet of long standing.

PIL: DIGESTIVA. (W & CO.)

Pepsin Conc't.....	1 gr.	Gingerine.....	1 16 gr.
Pv. Nuc. Vom.....	½ gr.	Sulphur.....	½ gr.
In each pill.			

This combination is very useful in relieving various forms of Dyspepsia and Indigestion, and will afford permanent benefit in cases of enfeebled digestion, where the gastric juices are not properly secreted.

As a corrective of nausea or lack of appetite in the morning, induced by over indulgence in food or stimulants during the night, these pills are unsurpassed; they should be taken in doses of two pills before retiring or in the morning at least one hour before eating; the first mentioned time is the most desirable, as the effects are more decided, owing to the longer period for action.

As a dinner pill, Pil: Digestiva is unequalled and may be taken in doses of a single pill either before or after eating.

The many acknowledgements, which have been received from the medical profession respecting the efficacy of these pills and their extensive use, is ample evidence of superior properties in cases where such a medicine is indicated. This warrants us in offering them with the assurance that there need be no reasonable fear of disappointment in results
