TO OUR SUBSCRIBERS.

It is disagreeable to us that of late we should have so often had to call upon our readers to pay up their accounts, but it is really an absolute necessity we should receive the amounts represented in them. As before explained, there are heavy domands being made upon us, and heavier to come in connection with a great lawsuit. A good many subscribers to the TRUE WITNESS are in arrears for several years on account of hard times, and other circumstances over which they had no control. If now, when the times are mending, they are not able to pay all at once, they might at least pay a portion and liquidate their indebtedness by instalments. As for those who owe only for a year or two, we are sure it is through carelessness, and that they have only to be reminded in order to get square on our books. Remember that a few dollars is not much to a subscriber, but \$10,000 is something to us.

Consumption Cured.
Since 1870 Dr. Sherar has each year sent from this office the means of relief and cure to thousands afflicted with disease. The correspondence necessitated by this work becoming too heavy for him, I came to his aid. He now feels constrained to relinquish it entirely, and has placed in my hands the formula o that simple vegetable remedy discovered by an East India missionary, and found so effective for the speedy and permanenut cure of Consump-tion, Bronchitis, Catarrh, Asthma and all Throat and Lung Diseases; also a positive and radical cure for Nervous Debility and all Nervous Complaints. Its remarkable curative powers have been proven in many thousand cases, and, actuated by the desire to relieve suffering humanity, I gladly assume the duty of making it known to others. Address me, with slamp, naming this paper, and I will mail you, free of charge, the recipe of this wenderful remedy, with full directions for its preparation and use, printed in German, French or English.—W. ANTI-BRITISH RESOLUTIONS.

Washington, July 17 .- In the House, resolutions were introduced by Cox (New York), requesting the President to insist on the release of the remaining American citizens imprisoned by the British Government, the suspension of the law in Iroland, particularly in the case of D. Sweeny, of California; also requesting the President to inform the House when it may expect an answer to the resolution of June 18th relative to American citizens suffering imprisonment in British jails; also, whether any correspondence has taken place with Lowell, nominally American Minister to Great Britain, but really doing police duty or detective work under Lord Granville, relative to his resignation or recall; also, requesting the Secretary of State to communicate a telegram relating to American citizins in British prisons, the publication of which was heretofore deemed incompatible with public interests, so that they may be considered in secret session of the House or Committee on Foreign Affairs; also, asking the Secretary of State for information as to the Panama ship canal, and whether it is not advisable at this time to reassent the intention of the United States to allow no intervention of European Governments in public affairs on this continent; also requesting the Secretary of the Navy for instructions under which Commodore Nicholson threatened to fire on Alexandria under certain contingencies, and for information whether American sailors and officers are performing police duty in Alexandria under the British Admiral, and, if so, by what authority. All these resolutions were referred to the Committee on Foreign Affairs.

THE CAUSE OF DISEASE IN THE STOMACH, KIDNEYS AND NERVOUS SYSTEM

Below will be found a brief Summary of a Lecture upon the Liver, delivered before the Eclectic College of Medicine, by

DR. J. HAYDOCK.

The Liver has been known as the great blood-maker and blood-partiter of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs or the stomach is converted into Glucose or Peptone, and in these forms enters the Portal vein. Here, by the action of the Liver, these substances are converted into a form of sugar and pass out of the Liver by a large vein, called the Hepatic vein, into the general circulation. The new material now formed serves two purposes, viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says:—"The composition of bile and its secretion is very complex. It is constantly being secreted by the Liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, it this most important organ of the body becomes torpid, or the passage of bile interfered with emaciation and disease these is not eight marked peculiarities that now occur, and which we all know of:

1. The patient complains of a feeling of weight and fulfness of the epigastrium.

1. The patient complains of a feeling of weight and fullness of the epigastrium.
2. Distention of the Stomach and now is by wind.
3. Heart-burn.
4. A feeling of weariness, pains in the limbs, and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and farred tought.
6. Constipation, with occasional attacks of diarrhees.
7. Headache in front of head.
8. Theression of spirite and overst melopolate, with legalitude and a diarrestica.

7. Readene in front of nead. 8. Depression of spirits and great melancholy, with lasslinde and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the Liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a LIVER STATULANT, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounted properly, is the readist mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious Remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill.

The People Know Them! The People Use Them! The People Praise Them WHAT HUNDREDS OF LETTERS SAY FROM PATIENTS ALL OVER THE HABITABLE GLOBE.

Musical Instruments, &c.

THE WEBER BABY GRAND. RECEIVED HOME.

"THE WEBER PIANO"

Is generally acknowledged the grandest instrument of music which has ever appeared in the household, or adorned the Lyric Stage. Its tones are pure and beautiful beyond all others. It is sweet, sympathetic and plaintive, or loud, grand and majestic, at the will of the performer. In its capacity to portray feeling, and in its wonderful power of expression, it stands absolutely without a giral. The descriptor of the performer of the performer of the performer of the performer. rival. The duration of its tones, quick responsive action, and perfect mechanism, place it, in the estimation of all musical people, above and beyond all its competitors. For many years the "Weber" Piano was used only by the wealthy and musical aristograpy of the United States; but since the Philadelphia Exhibition, where it was first placed before the public in competition with the great makers

of the world, the demand for it has been unprecedented.

The first second-hard instrument of this maker, offered at public competition in Montreal, though a square several years in use, realized \$515.00. This was far above the price reached by any other piano, and shows that a good piano, like a good painting, will always command its price.

A DIVISION IN THE HOUSE.

A "division" in the House of Commons is managed with great simplicity and adequate completeness. As soon as the moment arrives when it is the pleasure of the House to try the question before them by this test, the signal is given by the Speaker calling out "Strangers must withdraw?" This order is obeyed only by the occupants of seats below the bar and the gallery just over the clock, both of which are actually within the House The occupants of the Strangers' Gallery proper, are new permitted to remain. As soon, as the order to withdraw is giver, a two-mirute glass is turned by one of the clerks, in order to give time to members dispersed all over the purificus of the House-the library, refreshment-room &c .- to come in, and notice is given to them by the ringing of bells all over the building, which is effected simultaneously by means of electricity. As soon as the sand has run out, the doors are closed and locked by the Sergeaut-at-arms, and all late comers are excluded. The Speaker then puts the question, and, having declared which side in his epinion has the majority of voices, his decision is questioned by some member, and he then gives the direction, "The 'ayes, to the right, the 'noes' to the left," and the former file out of the door at the back of the cuair; the latter pass up the gangway on the Opposition side, and out at a small door at the lower end of the House, at the left side, under the gallery. The Speaker then orders two "tellers" to each door, and one of them reports to him that "the House is clear." The members thus driven out of the body of the House find themselves in a long corridor; and at the end of the corridor is a railing and a desk, between which sufficient space is allowed for one person to pass at a time, after the minner of pay-places at the theatres. On one side of these stand two "tellers," (one of each of the parties then voting against the other), and two clerks, both of whom are provided with printed lists of the names of all the members of the House. As each member passes through, the teller counts him-he himself usually calls out his name-and the clerks tick it off on the list, with a view to its being inserted in due course in the divisiouiists which are printed every morning with the orders of the day. The members then re-turn one by one into the body of the House the ayes entering at the principal door below the bar, and the noes by the door at the back of the Speaker's chair. When all have pass-ed, the tellers make up the figures, and, all four advancing to the table, one of those on the winning side, in a loud voice, declares the respective numbers. Although in description this may appear a cumbrous mode of collecting votes, it is in practice remarkably expeditions and very precise; and it gives the members only the trouble of taking a short walk through the lobby-a far less tedious operation than any process of counting of registering which the house would prove to ba .- Old and New London.

"WOMEN NEVER THINK."

If the crabbed old bachelor who uttered this sentiment could but witness the intense thought, deep study and thorough investigation of women in determining the best medicines to keep their tamilies well, and would note their segacity and wisdom in selecting Hop Bitters as the best, and demonstrating it by keeping their families in perpetual health, at a mere nominal expense, he would be forced to acknowledge that such sentiments are baseless and false. - I'icayunc.

A negro in Brockignham, N. C., told a crowd that he would die very soon. He fell dead from apparently natural causes in a very few minutes.

PLEASANT TO THE TASTE

Children and persons with weak constitu-tions have always found great difficulty in taking Cod Liver Oil, and from this fact it has not been universally used, but with Northrop & Lyman's Emulsion of Cod Liver Oil and Typophosphites of Lime and Sads, this prejudice is removed. It is so thoroughly disguised that you cannot detect the Ccd Liver Oil. One physician writes us that it is used almost as a beverage in his family; another person informs us that he had to hide the bottle frem his children. For Coughs, Colds, broken down constitutions, and all Lung Diseases, it has no equal.

A youth of Grand Rapids married the girl who was betrothed to his father. The pair returned to the bridegroom's parent for forgiveness and got it.

* "A doubtful friend is worse than a certain enemy," and vice versa a certain friend is infinitely better than a doubtful enemy. Thus Kidney-Wort is an incomparably better friend to the human race than whole catalogues full of doubtful nostrums. It is an unlailing remedy for that tormenting disease piles. It moves the bowels gently and freely, and thus removes the cause. Do not fall to try it faithfully either in dry or liquid form.

The German Government is allowed by law to employ the interest on more than \$10,000,000 belonging to the ex-King of Hanover "to avert and combat all undertakings against Prussia." This yields \$450,000 a year for secret service money.

Mrs. D. Morrison, Farnham Centre, P.Q., writing about Dr. Thomas' Eclectric Oil says: George Bell used it on his son, and it cured him of rhoumatism with only a few applications. The balance of the bottle was used by an old gentleman for Asthms, with the bost results. It acts like a charm."

A Mormon elder of Salt Lake has had bis thirteen wives photographed, both in a group and separately. The pictures have been placed in an elegant album, and under each woman is engressed a quotation of sentimen-tal poetry suggestive of her best quality. With Diamond Dyes any lady can get

as good results as the best practical dyer. Every dyo warranted true to name and gample.
