TAX-EXEMPTIONS -- CONVENTION ECHOES -CUSTOMS APPOINTMENTS-MUNICI-

(From our own Correspondent.)

TORONTO, Dec. 28.—The question of taxexemption is at present receiving a considerable share of attention and is likely to be a source of considerable discussion for some months to come. An association under the title of "The Anti-tax Exemption Society has been organized to prosecute the work of abolishing the exemption from tax-ation inow enjoyed by government, shurch and other property. As the exemption now aggregate some eleven million dollars the question is one of very great importance. That the immunity from taxation must be curtailed is conceded by all, but whether to demand total or partial abolition is a question on the public mind is divided. The majority at present are opposed to taxing churches and the ground whereon they stand, and should legislation be secured on the question during the coming year, there is little doubt but this and other exceptions will be made. There are some infidely and others of narrow minds who are anxious that all church property should be taxed, but they are, thanks to the Christian sentiment of the community, in a hopeless minority. The party organs are still engaged in com-

menting on the chieftain's speech at the Grand Opera House and at the banquet. The Globe and kindred journals are endeavoring to show that Sir John sought to arouse Protestant prejudice and bigotry when he asserted that the present Liberal leaders were willing to do a great deal at the bidding of the Catholic hierarchy. Sir John, doubt-less, only desired to justify his al-liance with the Bleus of Quebec and to contrast the policy of Messes. Blake and Mowat with that of the Grit party under the leadership of the late George Brown, but the Mail with its usual hatred of Archbishop Lynch attempts to show that there exists a corrupt bargain between the Archbishop and Mowat, and attempts to excite Protestant prejudice by representing the Octario Government as being under the domination of that prelate. The course of the Mail is calculated to injure rather than to benefit its party and . should receive little encouragement from fairminded Conservatives. No party can be benefited by raising the "No Popery" cry at the present time.

APPOINTMENTS IN THE CUSTOMS.

It has been repeatedly asserted by those corversant with the facts that it is almost an impossibility for a Catholic to secure an appointment in the Toronto Custom House, that in fact all the fortunate applicants are Orangemen or Free masons. This assertion unfortunately appears to be well founded as only one Catholic has been appointed since 1878, and even in that solitary Instance to a very insignificant position. It is high time that the Catholic supporters of the Dominion Government should insist on fair play in this i matter. There is a vacancy at present existing, caused by the resignation of Cutholic gentlem in, appointed under the Mackenzie administration. Should the Minister of Customs decline to appoint a Catholic to this position, then it will certainly be the duty of those interested to speak out with no uncertain sound.

THE STATE OF TRADE.

Manufacturers, traders and wholesale and retail dealers all agree that the year now closing has not been a prosperous one for the business community, although it has wit-nessed no great financial or commercial disasters, yet the rtate of trade has been the reverse of encouraging, and operations generally have been comiderably curtailed. There is a more hopeful feeling to garding the trade of 1885, founded principally on the large amount of grain and produce held in stock, and the cautious policy pursued by the mercantile community in the purchase of stock. A prosperous spring and summer trade is therefore confidently looked

To-day being the day act apart for the civic nominations, there has been considerable bustle and excitament in the several words. There are two candidates for the Mayoralty, viz., J. J. Withrow and Alex. Mauning. The supporters of the latter gentlemen have been showing emsiderable activity during the past week, and many of them express their confidence in his success, while the friends of Mr. Withrow scent to rest assured that he can win without any serious effort, as the people are anxious to reward him for his former municipal service and his usefulness in recent years as Chairman of the Exhibition Association. The probabilities are that the contest will be close and vigorously prose-

STRANGE STORY FROM AUSTRIA. VIENNA, Dec. 30 .- The recent revelations made in Buda-Pesth, of the discovery of the abduction of young girls, have caused great excitement, more especially as the reports have been confirmed in a remarkable way. A girl named Anna Ouska, living with a German family in Pesth, has made a statement to a magistrate at the request of her master. She says that in the autumn of 1885 she answered an advertisement for a situation, and a few days after was called upon by a woman, who offered her a position in the States at a large salary, her passage to be paid, and a small sum of money to be ad-vanced for her outfit. She accepted and went to Pesth, where she was shown a ticket to New York, and started off with ten other Austrian girls for Marseilles. Here they were all jut on board a steamer, as they thought for the States, but which in reality landed them at Alexandria. As soon as they had landed they were taken to a large house, where they were locked up in separate rooms. What happened to the rest of the girls Anna Ouska does not know, but she was sent to a harem kept by an Egyptian merchant in Cairo, where she remained in degraded slavery for over eight months, when she managed to escape By the greatest good fortune she met a German gentleman, to whom she told her story. He took her home, employed her as lady's maid for his wife and daughter, and brought her back to Pesth. The girl is intelligent, and gives full particulars, both names and dates, which will likely lead to some important arrests.
