Mercantile Summary.

We acknowledge with thanks calendars from the following firms and persons: A. R. Clarke & Co., leather manufacturers, the Conger Coal Company, the Adamant Manufacturing Company, all of Toronto; the B. Greening Wire Company, Hamilton; Fairweather & Co., Peterboro' and Lindsay; Western Milling Co., Regina; Macdonald & Co., cotton buyers, and Whitelaw Brothers, wholesale druggists, St. Louis, Missouri.

SOMETHING of the same sort as is aimed at by Mr. Milliner, of Deseronto, in his "Useful Tables for Business Men," but on a smaller scale, appears in the large calendar for 1893 issued by the B. Greening Wire Co., limited, of Hamilton. Tables of size, weight, and strength of wire, weight and strength of wire rope, transmission of power by wire ropes, inclined planes, &c., &c., occupy the last page of the calendar, while every leaf of it is ingeniously used to advertise by a cut some one of the company's products in wire or perforated metal.

THE novel feat of obtaining perfectly cylindrical cores of rock formations overlaid by over 100 feet of water has recently been accomplished in obtaining data for the new tunnel between P. E. Island and New Brunswick. The *Engineering and Mining Journal* says a diamond drill driven by steam at the rate of 1,000 revolutions a minute, is attached to an iron tripod resting on the bottom of the sea and secured in its position by anchors. The steam was conveyed to the drill in flexible pipes from a scow on which are placed the boilers and which is anchored alongside.
