

"MEDUSA"

Water-proof Compound

**Makes Concrete Impervious to Water
Prevents Discoloration and Efflorescence**

It is a dry powder, to be thoroughly mixed with dry cement before sand and water are added, thus becoming an inseparable part of the concrete.

"MEDUSA" GIVES ABSOLUTELY PERMANENT RESULTS, WILL NOT AFFECT STRENGTH, SETTING OR COLOR OF PORTLAND CEMENT.

"WHITE STAINLESS PORTLAND CEMENT"

BRANDS

"MEDUSA"

"BLANC"

"BERKSHIRE"

The above cements are all pure white in color, can be used in the same manner as ordinary Portland, from which it differs in no respect except in color. To produce white concrete or white artificial stone, the cement should be mixed with white sand, white quartz, ground marble or ground white limestone. White Portland Cement is especially adapted for exterior finish of concrete buildings, concrete building blocks and interior decoration.

Write us for descriptive booklet and prices. We want all Dealers to handle our White Portland Cement. There is a good margin of profit in it, and a ready sale.
