

- ✓ XIV Books in present Travelling Library Room to be removed to half-floor of Old Stack contiguous to present Shipping Room, entrance to this Stack being made by a door through the present wall. This half-section of the Stack to be separated by a grating in a manner similar to the top floor assigned to the Law Library.
- ✓ XVI Present Travelling Libraries Room to become Students Common Room and to be made fireproof.
- ✓ XVII Adequate electric wiring for present Stack.

B. NEW CONSTRUCTION

- I A wing to be added at the south end of the present building, running east and west, with a ground floor entrance on McTavish Street.
- II Small lobby and staircases at McTavish Street end.
- III Portion of ground floor, or, basement, to be arranged as a fireproof Exhibition Room reached from the lobby.
- IV Underground Stack, or, the remainder of Exhibition Room floor, to be storage for valuable books, etc.
N.B. This space is absolutely necessary to house the Mussen and Morgan Collections, and to provide space for the public Library exhibitions.
- V Next three floors to be so arranged that
 - (a) McTavish Street end contains a special reading room with stack storage immediately connected.
 - (b) Two storeys of stacks to each reading room.
 - (c) These special libraries and stacks to be allotted to the Blackader Library of Architecture, the Blacker Library of Zoology, and, possibly, the Emma Shearer Wood Library of Ornithology.
- VI If the new construction runs far enough to the east the remaining portion of the stack at the eastern end should be connected with floors of the present Stack in each case to provide for expansion.
- VII Upper portion of new construction to provide additional stack room.
