

MONARCH HAND KNITTING YARNS

The wool from which Monarch Floss, Monarch Down and Monarch Dove are spun is taken from the long, thick, silky coats of Australian sheep. The elasticity, softness of texture, and serviceability of these long-fibre yarns is such that the garment into which they are woven retains its shape and its good looks throughout long and active use. Whether it be a light scarf or pullover requiring Monarch

Floss, or a somewhat heavier piece for which Monarch Down or Monarch Dove is used, you will find these yarns uniform in size and true and dependable in coloring. Forty fashionable shades to choose from in handy balls ready for use. Have you our new book No. 5, "Art in knitting Monarch Yarns"? Now on sale at 25c a copy. May be had from your dealer, or if he is not able to supply you, from us direct.
