A Grammar of New Testament Greek By JAMES HOPE
MOULTON, D.D., Didsbury College. Part I., The Prolegomena.
Third Edition now ready. Demy 8vo, 8s. net.

NOTE.—Dr. Moulton has spent much labour upon this New Edition. It has been thoroughly revised and contains a large amount of important additional matter.

No other grammar takes adequate account of those wonderful discoveries of Greek papyri, which within the last few years have altered the entire basis of the study of New Testament Greek.

'This book is indispensable, really a first requisite to the understanding of the New Testament Greek. We do not see how it could have been better done, and it will unquestionably take its place as the standard grammar of New Testament Greek.'—Principal MARCUS DODS, D.D.

CONCORDANCE TO THE GREEK TESTAMENT. MOULTON-GEDEN.

A Concordance to the Greek Testament: According to the Texts of Westcott and Hort, Tischendorf, and the English Revisers. Edited by W. F. MOULTON, D.D., and A. S. GEDEN, M.A. In crown 4to (pp. 1040). SECOND EDITION, Revised throughout. Price 26s. net; or in half-morocco, price 31s. 6d. net.

"*It will be generally allowed that a new Concordance to the Greek Testament is much needed in the interests of sacred scholarship. This work adopts a new principle, and aims at providing a full and complete Concordance to the text of the Greek Testament as it is set forth in the editions of Westcott and Hort, Tischendorf (8th), and the English Revisers. The first-named has throughout been taken as the standard, and the marginal readings have been included. Thus the student with any one of these three editions in his hands will find himself in possession of a complete Concordance to the actual text on which he is engaged. While the method employed, it may fairly be claimed, precludes the omission of any word or phrase which, by even a remote probability, might be regarded as forming part of the true text of the New Testament, on the other hand, passages disappear as to the spuriousness of which there is practical unanimity among scholars.*

Professor W. SANDAY, D.D., LL.D., Oxford, writes: 'There can be no question as to the value of the new "Concordance." It is the only scientific Concordance to the Greek Testament, and the only one that can be safely used for scientific purposes.'
